

# The Church Of Sancta Sophia Constantinople

**Ahmed M. Bassioni**

A decorative red circular graphic element, resembling a stylized sun or a lens flare, is positioned to the right of the author's name. It has a soft, glowing effect with a gradient from red to white.

## **The Church Of Sancta Sophia Constantinople:**

*The Church of Sancta Sophia, Constantinople* William Richard Lethaby, Harold Swainson, 1894

**Sancta Sophia Constantinople** William Lethaby, 2023-04-20 Sancta Sophia is the most interesting building on the world's surface. Like Karnak in Egypt or the Athenian Parthenon, it is one of the four great pinnacles of architecture, but unlike them, this is no ruin nor does it belong to a past world of constructive ideas. Although it precedes by seven hundred years the fourth culmination of the building art in Chartres, Amiens or Bourges, and thus must ever stand as the supreme monument of the Christian cycle, far from being a ruin, the church is one of the best preserved of so ancient monuments, and in regard to its treatment by the Turks, we can only be grateful that Sancta Sophia has not been situated in the more learned cities of Europe such as Rome, Aachen or Oxford. During the period of revived interest in ecclesiastical antiquities, our first object has been to attempt some disentanglement of the history of the Church, and an analysis of its design and construction. On the one hand, we have been led a step or two into the labyrinth of Constantinopolitan topography; on the other, we have thought that the great Church offers the best point of view for the observation of the Byzantine theory of building.

William Richard Lethaby 18 January 1857 17 July 1931 was an English architect and architectural historian whose ideas were highly influential on the late Arts and Crafts and early Modern movements in architecture and in the fields of conservation and art education.

**The Church of Sancta Sophia, Constantinople** William Richard Lethaby, Harold Swainson, 1894

[The Church of Sancta Sophia, Constantinople](#) William Richard Lethaby, 2017-07-16 Excerpt from *The Church of Sancta Sophia Constantinople* A Study of Byzantine Building. Much remains to be observed at Sancta Sophia: the Baptistry, the Cisterns beneath the church, and the Circular Building to the east are practically unknown, and any fact noted in regard to them will almost certainly be new. But it is still more important that building customs, recipes and traditions should be recorded. Byzantine art still exists not only on Mount Athos, but all over the once Christian East. At Damascus, the builders are still Christians, and the Greek masons of Turkey, M. Choisy says, are still the faithful representatives of the builders of the Lower Empire, and their present practice is a sure commentary on the ancient buildings.

About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com). This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. *The church of Sancta Sophia Constantinople* Oskar Wulff, 1897

**Russian Travelers to Constantinople in the Fourteenth and Fifteenth Centuries** George P. Majeska, 1984

**Newman University Church, Dublin** Niamh Bhalla, 2024-07-01 In 1854 John Henry Newman one of the foremost intellectual figures of the nineteenth century was officially installed as the rector of the first Catholic university in Ireland University Church constructed in 1855 6 was Newman s first objective when he agreed to the rectorship and it can

be considered as a tangible manifestation of the idea behind the unprecedented Catholic university in Dublin the posing of an erudite Catholic alternative to post Enlightenment secularism and Protestant hegemony through a style based analogy to the early Church Despite physically embodying what Newman wished to achieve in and through his new university this early Christian style church which drew upon Roman and Byzantine basilicas has received little attention This book charts for the first time the significant place that the building occupies within the history of Victorian revivalist architecture Niamh Bhalla explores the meaningful connection between the church s context and the ambiguity of its early Christian style In the intersection of these two things a significant monument was created The study of University Church therefore provides an effective lens to understand more comprehensively the architectural revivalism that dominated the nineteenth century particularly the first stirrings of basilican and Byzantine revivalist architectures in the British Isles Praise for Newman University Church Dublin Newman University Church Dublin is an important contribution to the burgeoning study of historicist architecture of the nineteenth century In studying the larger contexts of the church Niamh Bhalla illumines the aspirations of Cardinal Newman for the university that he directed and Catholicism in Ireland and the United Kingdom Robert S Nelson Yale University A riveting analysis of the University Church and its intellectual background Niamh Bhalla steers us effortlessly through the many strands of architectural and religious thought that lie behind Newman s church while revealing its seminal place in the history of the Byzantine revival Roger Stalley Trinity College Dublin

**The History of the Christian Church During the First Ten Centuries, from Its Foundation to the Full Establishment of the Holy Roman Empire and the Papal Power** Philip Smith,1879      *The History of the Christian Church ...* Philip Smith,1881

*The student's ecclesiastical history* Philip Smith,1878      *A World History of Architecture* Marian Moffett,Michael W. Fazio,Lawrence Wodehouse,2003 The Roman architect and engineer Vitruvius declared firmitas utilitas and venustas firmness commodity and delight to be the three essential attributes of architecture These qualities are brilliantly explored in this book which uniquely comprises both a detailed survey of Western architecture including Pre Columbian America and an introduction to architecture from the Middle East India Russia China and Japan The text encourages readers to examine closely the pragmatic innovative and aesthetic attributes of buildings and to imagine how these would have been praised or criticized by contemporary observers Artistic economic environmental political social and technological contexts are discussed so as to determine the extent to which buildings met the needs of clients society at large and future generations

**The Byzantine Churches of Istanbul** Thomas F. Mathews,1976      *The Church of St. Sophia, Constantinople* Sidney Toy,1922\*      **The Illustrated History of Rome** George A. Smith,1884      **The Byzantine Empire** James Francis LePree Ph.D.,Ljudmila Djukic,2019-09-09 An indispensable resource for investigating the history of the Byzantine Empire this book provides a comprehensive summary of its overall development as well as its legacy in the modern world The existence and development of Byzantium covers more than a millennium and coincides with one of the darkest periods of European history

Unfortunately the Empire's achievements and brightest moments remain largely unknown except to Byzantine scholars. Through reference entries and primary source documents this encyclopedia provides essential information about the Byzantine Empire from the reign of Diocletian to the Fall of Constantinople. The reference entries are grouped in eight topical sections on the most significant aspects of the history of the Byzantine Empire. These sections include individuals, key events, key places, the military, objects and artifacts, administration and organization, government and politics, and groups and organizations. Each section begins with an overview essay and contains approximately thirty entries on carefully selected topics. The entries conclude with suggestions for further reading along with cross references. A selection of primary source documents gives readers first hand accounts of the Byzantine world.

**The Alexandrian Corinthian Capital and its Role in the Evolution of the Corinthian Order in Hellenistic, Roman, and Late Roman Architecture** Ahmed M.

Bassioni, 2022-04-21 This study discusses the evolution of the Corinthian capital in Antiquity and how this centred around Alexandria rather than Mainland Greece. It tackles the rise of the Corinthian capital in Classical Greece and its adaptation on in Hellenistic Alexandria.

**The Edinburgh Review**, 1895
