The Churchill Coalition 1940 1945:

The Churchill Coalition and Wartime Politics, 1940-1945 Kevin Jefferys, 1995 In this revisionist study Jefferys challenges many long held assumptions about British politics in the period between 1939 and 1945 Drawing on a range of unpublished sources he challenges the notion of consensus as a guiding principle of politics in the 1940s and argues that wartime coalition masked the continuance of profound disagreements about the future direction of economic and social policy Distributed in the US and Canada by St Martin s Press Annotation copyrighted by Book News Inc Portland OR

The Churchill Coalition, 1940-1945 John Michael Lee, 1980 **War and Reform** Kevin Jefferys, 1994 World War II marked a crucial watershed in the political history of modern Britain This book seeks to explain through the eyes of contemporaries how the transition occurred from the Conservative enterprise society of the 1930s to Labour s welfare state and mixed economy of the late 1940s *War and Reform* also addresses the question of how the political changes of this period affected British society as a whole and how much public opinion itself shaped change Clement Attlee Jerry Hardman Brookshire, 1995 Shows how Attlee middle class and Oxford educated became a committed socialist while a young social worker in London s East End and his rise as Deputy Minister during Churchill s wartime coalition and Prime Minister during Labour s creation of the welfare state from 1945 1951

Britain and will be equally instrumental in its future

The Rise and Fall of the British Nation David

Edgerton, 2018-06-28 From the acclaimed author of Britain's War Machine and The Shock of the Old a bold reassessment of Britain's twentieth century. It is usual to see the United Kingdom as an island of continuity in an otherwise convulsed and unstable Europe: its political history a smooth sequence of administrations from building a welfare state to coping with decline. Nobody would dream of writing the history of Germany or the Soviet Union in this way. David Edgerton's major new history breaks out of the confines of traditional British national history to redefine what it was to be British and to reveal an unfamiliar place subject to huge disruptions. This was not simply because of the world wars and global economic transformations but in its very nature. Until the 1940s the United Kingdom was, Edgerton argues, an exceptional place: liberal capitalist and anti-nationalist at the heart of a European and global web of trade and influence. Then as its global position collapsed it became for the first time and only briefly a real successful nation with shared goals, horizons and industry before reinventing itself again in the 1970s as part of the European Union and as the host for international capital no longer capable of being a nation. Packed with surprising examples and arguments, *The Rise and Fall of the British Nation* gives us a grown-up, unsentimental history which takes business and warfare seriously and which is crucial at a moment of serious reconsideration for the country and its future.

All Behind You, Winston Roger

Hermiston, 2016-04-07 *All Behind You* Winston tells the story of the most remarkable gathering of leaders in modern British history: the War Cabinet that saw the country through its darkest and finest hour. When Winston Churchill became Prime Minister on 10 May 1940 it was not with the unanimous support of Westminster or the country. For many, Lord Halifax was the obvious choice to succeed Neville Chamberlain and Churchill's grasp of the Home Front appeared uncertain at best. He assembled around him, however, a Cabinet of all the talents which would variously mobilise, arm, feed, fund, shelter, evacuate, heal and ultimately save Britain. Among these remarkable men and women were Churchill's rivals, Lord Halifax and Sir Stafford Cripps, the loyal and dogged Clement Attlee, titanic egos such as Lord Beaverbrook and John Reith, the popular department store owner Lord Woolton, the man who kept the nation fed, the propagandist and playboy Duff Cooper and many of the statesmen who would go on to build the New Jerusalem in peacetime. By 1945 they had not only steered the country to victory, they had also ensured Churchill's inviolable position in our national myth, an outcome that had seemed far from likely five years earlier. In a series of character-driven chapters, Roger Hermiston, a former deputy editor on Radio 4's *Today* and the

author of *The Greatest Traitor* tells the behind closed doors story of the key figures and key ministries delving deep into the archives to bring to life a Cabinet that was both the brain and the conscience of the nation **The Encyclopedia Americana** Grolier Educational Staff,2001-04 **The Right in the Twentieth Century** Brian Girvin,1994 An examination of Right wing politics in Europe and America since 1900 including its ideological framework and political impact in the twentieth century stressing post 1945 developments **The 1996 Information Please Almanac** Otto Johnson,1996 Provides facts and background information on a great variety of topics including income tax world travel the American economy the media health and nutrition and more *Information Please Almanac, 1993* Information Please,Information Please Editors,1992-11 Complete 1992 presidential election returns 1992 world series statistics special year in pictures review 1992 Olympic results **Time Almanac 2001** Borgna Brunner,2000 Created by the editors of Time magazine and the experts at Information Please this almanac is the one comprehensive book of facts readers need to find everything from global trends to election results and more The more than a million facts are accompanied by over 32 pages of color maps flags and news photos **Reader's Digest Almanac** ,1968 *Information Please Almanac* ,1998 **Research Guide to European Historical Biography, 1450-present: A-Col.
