The Civic World Of Early Renaissance Florence:

The Civic World of Early Renaissance Florence Gene A. Brucker, 2015-03-08 Professor Brucker contends that changes in the social order provide the key to understanding the transition of Florence from a medieval to a Renaissance city. In this book he shows how Florentine politics were transformed from corporate to elitist. He bases his work on a thorough examination of archival material providing a full socio-political history that extends our knowledge of the Renaissance city state and its development. The author describes the restructuring of the political system showing first how the corporate entities that comprised the traditional social order had lost cohesiveness after the Black Death. He traces the process of readjustment that began during the guild regime of 1378-1382 and analyzes the impact of foreign affairs. During the crisis years of the Visconti wars, the distinctive features emerged of an elitist regime whose vitality was demonstrated following the death of Giangaleazzo Visconti and whose membership and style the author discusses in detail. Originally published in 1977, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Oxford Handbook of Freedom David Schmidtz, Carmen E. Pavel, 2018 We speak of being free to speak our minds free to go to college free to move about we can be cancer free debt free worry free or free from doubt. The concept of freedom and relatedly the notion of liberty is ubiquitous but not everyone agrees what the term means and the philosophical analysis of freedom that has grown over the last two decades has revealed it to be a complex notion whose meaning is dependent on the context. The Oxford Handbook of Freedom will crystallize this work and craft the first wide-ranging analysis of freedom in all its dimensions: legal, cultural, religious, economic, political, and psychological. This volume includes 28 new essays by well-regarded philosophers as well as some historians and political theorists in order to reflect the breadth of the topic. This handbook covers both current scholarship as well as historical trends with an overall eye to how current ideas on freedom developed. The volume is divided into six sections: conceptual frames framing the overall debates about freedom; historical frames: freedom in key historical periods from the ancients onward; institutional frames: freedom and the law; cultural frames: mutual expectations on our right to be free; economic frames: freedom and the market; and lastly psychological frames: free will in philosophy and psychology.

The Later Medieval City David Nicholas, 2014-06-17 The Later Medieval City 1300-1500 the second part of David Nicholas's ambitious two-volume study of cities and city life in the Middle Ages fully lives up to its splendid precursor The Growth of the Medieval City. Like that volume it is fully self-sufficient though many readers will want to use the two as a continuum. This book covers a much shorter period than the first. That traced the rise of the medieval European city system from late Antiquity to the early

fourteenth century this offers a portrait of the fully developed late medieval city in all its richness and complexity David Nicholas begins with the economic and demographic realignments of the last two medieval centuries These fostered urban growth raising living standards and increasing demand for a growing range of urban manufactures The hunger for imports and a shortage of coin led to sophisticated credit mechanisms that could only function through large cities But if these changes brought new opportunities to the wealthy they also created a growing problem of urban poverty violence became endemic in the later medieval city Moreover although more rebellions were sparked by taxes than by class conflict class divisions were deepening Most cities came to be governed by councils chosen from guild members and most guilds were dominated by merchants The landowning elite that had dominated the early medieval cities of the first volume still retained its prestige but its wealth was outstripped by the richer merchants while craftsmen who had little political influence were further disadvantaged as access to the guilds became more restricted The later medieval cities developed permanent bureaucracies providing a huge range of public services and they were paid for by sophisticated systems of taxation and public borrowing The survival of their fuller richer records allow us not only to apply a more statistical approach but also to get much closer to the splendours and squalors of everyday city life than was possible in the earlier volume The book concludes with a set of vibrant chapters on women and children and religious minorities in the city on education and culture and on the tenor of ordinary urban existence Like its predecessor this book is massively and vividly documented Its approach is interdisciplinary and comparative and its examples and case studies are drawn from across Europe from France England Germany the Low Countries Iberia and Italy with briefer reviews of the urban experience elsewhere from Baltic to Balkans The result is the most wide ranging and up to date study of its multifaceted subject It is a formidable achievement

Florentine Tuscany William J. Connell, Andrea Zorzi, 2000 Florence has often been studied in the past for its distinctive urban culture and society while insufficient attention has been paid to the important Tuscan territorial state that was created by Florence in the fourteenth and fifteenth centuries Comprising a handful of formerly independent city states and numerous smaller communities in the plains and mountains the Florentine empire in Tuscany supplied the markets and fiscal coffers of the Renaissance republic while providing lessons in statecraft that nourished the political thought of Machiavelli and Guicciardini This volume comprises seventeen original essays representing the new directions being taken by historians of the Florentine Renaissance It offers new and exemplary approaches towards state building political vocabulary political economy civic humanism local history and social patronage in what is one of the most interesting and well documented of the states of late medieval and Renaissance Europe Politics of the One Artemy Magun, 2012-11-08 This volume in the Political Theory and Contemporary Philosophy series examines one of the most important topics in contemporary political theory how to conceptualize the relationship between the one and the many The essays discuss how to reconcile multiple ontologies without subsuming them to a totalitarian unity While one school of thought Deleuze Negri seeks to create a new ontology

based on the many instead of the one which politically is close to anarchy another proposes to understand the one as the ultra one of the event Badiou In this groundbreaking work leading thinkers explore these debates and offer alternative concepts Building on Jean Luc Nancy s essay who proposes an ontology of singular plurality contributors aim to synthesize the one and the many and suggest different ways of forming collectives beyond the dominant representative political forms An original and challenging work Politics of the One addresses new possible ways of bringing people together integrating philosophy with theoretical and practical problems of politics

Perspectives on Early Modern and Modern Intellectual History Joseph Marino, Melinda Wilcox Schlitt, 2001 *Perspectives on Early and Modern Intellectual History* brings together several disciplines and historical periods and three generations of scholars to celebrate the pedagogical and scholarly career of Nancy Struever who taught in the Humanities Center and Department of History at The John Hopkins University Twenty three essays reflect the breadth of disciplinary competence and the standards of scholarly rigor that Stuever instilled in her students and demonstrates in her scholarship The book is organized around three divisional areas of inquiry Renaissance Humanism Histories of Art and Rhetorics Philosophies and Histories The first part includes studies on Shakespeare and Ariosto essays on Machiavelli Caterina da Siena and Lorenzo Valla and Manetti on the library of Nicholas V The section on histories of art contains contributions on L B Alberti on early modern spectacle and the performance of images and on rhetoric and art The third section continues with discussions of rhetoric history and literature from a more theoretical viewpoint The book concludes with a bibliography of Stuever s works Authors include Marvin Becker Marjorie O Rourke Boyle Salvatore Camporeale F Edward Cranz Elizabeth Cropper Marc Fumaroli Thomas M Greene Michael Ann Holly J G A Pocock Charles Trinkaus and Hayden White Joseph Marino is an independent scholar and is with Current Analysis in Virginia Melinda Schlitt is Associate Professor in the Department of Fine Arts Dickinson College
