Andress,2006-08-23 The French Revolution of 1789 was the central event of modern history For the first time a major nation fell prey to political and then social revolution with civil war and the Reign of Terror following the execution of Louis XVI in January 1793 Although the Revolution started with the resistance of a minority to absolutist government it soon spread to involve the whole nation including the men and women who made up by far the largest part of it the peasantry as well as towns and craftsmen the poor and those living on the margins of society The French Revolution and the People is a portrait of the common people of France in the towns and in the countryside in Paris and Lyon in the Vendee Britanny Provence Popular grievances and reactions affected the events and outcome of the Revolution at all stages and in turn everyone in France was affected by the Revolution The French Revolution and the People is a vivid story of conflict violence and death but there were

winners as well as losers and not all the suffering was in vain as the injustices of the Ancien Regime were thrown off
