*The Countercultural Victory of 1 John in Greco-Roman Context* Ahreum Kim,2023-09-21 Ahreum Kim re examines conquering language in 1 John arguing that when the letter is read with the context of Greco Roman culture in mind the conflict extends beyond in fighting within the

Johannine community She suggests that the letter s author presents a consistent countercultural narrative due to concern about the predominant world and proposes that the author exhorts the minority Johannine community to hold onto their belief while proclaiming that they are triumphant conquerors against the prevailing world Kim first examines how

conquering language toward a Johannine nike utilizes militaristic undertones already familiar in Greco Roman culture She argues that each of the opponents mentioned is affiliated with the world and it is ultimately the conquering of the world itself which marks the Johannine victory Kim demonstrates that the author references the negative fear of the divine in the

Polytheistic world which contrasts with the Johannine love of God and that his countercultural message continues to the very end with a concluding warning against the many worldly idols Finally she posits that the battle with the Greco Roman world

is ultimately a conflict of pistis comparing Roman soldiers achieving military victories with a pistis to their emperor and the repeated emphasis on Jesus as the true Son of God     Augustus Karl Galinsky,2012-07-16 In this lively and concise biography Karl Galinsky examines Augustus life from childhood to deification     Marking Time Duncan Steel,2007-08-03 If you lie awake worrying about the overnight transition from December 31 1 b c to January 1 a d 1 there is no year zero then you will enjoy Duncan Steel s Marking Time American Scientist No book could serve as a better guide to the cumulative invention that defines the imaginary threshold to the new millennium Booklist A Fascinating March through History and the Evolution of the Modern Day Calendar In this vivid fast moving narrative you ll discover the surprising story of how our modern calendar came about and how it has changed dramatically through the years Acclaimed author Duncan Steel explores each major step in creating the current calendar along with the many different systems for defining the number of days in a week the length of a month and the number of days in a year From the definition of the lunar month by Meton of Athens in 432 b c to the roles played by Julius Caesar William the Conqueror and Isaac Newton to present day proposals to reform our calendar this entertaining read also presents timely tidbits that will take you across the full span of recorded history Find out how and why comets have been used as clocks why there is no year zero between 1 b c and a d 1 and why for centuries Britain and its colonies rang in the New Year on March 25th Marking Time will leave you with a sense of awe at the haphazard nature of our calendar s development Once you ve read this eye opening book you ll never look at the calendar the same way again     Phoenix ,1999     Apeiron ,1997     *Studies in Latin Literature and Roman History* Carl Deroux,2010
