Intellectuals and the State in Twentieth-Century Mexico Roderic Ai Camp, 1986 In developing countries the extent to which intellectuals disengage themselves in state activities has widespread consequences for the social political and economic development of those societies Roderic Camps examination of intellectuals in Mexico is the first study of a Latin American country to detail the structure of intellectual life rather than merely considering intellectual ideas Camp has used original sources including extensive interviews to provide new data about the evolution of leading Mexican intellectuals and their relationship to politics and politicians since 1920 *Marxism & Communism in Twentieth-century Mexico* Barry Carr, 1992 In spite of the significance of the Mexican political left which has surged in recent years little information has been available to English language readers In this important book Barry Carr describes the Mexican leftist movement s attempts to come to grips with the Mexican Revolution of 1910 20 and the ruling party that resulted and its own efforts to radicalize and organize Mexican workers Carr offers intriguing new material on the Mexican Communist party s international relations especially with its counterpart in the United States and on the Mexican background to the assassination of Leon Trotsky in 1940 He also examines the non Communist left as it has emerged since 1960 Based on archival sources *Marxism and Communism in Twentieth Century Mexico* is the first study of the entire spectrum of the Mexican left to appear in any language **Mexico Between Hitler and Roosevelt** Friedrich Engelbert Schuler, 1998 This is the first book to analyze the link between Mexico s foreign and domestic relations in the 1930s By studying the regime of President Lazaro Cardenas 1934 1940 Professor Schuler substantially revises our understanding of how Cardenas asserted Mexico s economic and political sovereignty and also consolidated one party rule and state directed capitalism Amid a deteriorating international climate and worldwide depression a cadre of technocrats and ministers under Cardenas consistently advanced domestic goals in their foreign policy initiatives particularly the centralization of the economy and the industrialization of Mexico

Drawing on impressive research in Mexico the United States Germany and Great Britain Professor Schuler shows that Cardenas was far less of a doctrinaire leftist at home and abroad than previously assumed especially in his ongoing economic contacts with Nazi Germany before and after Mexico's expropriation of oil in March 1938 Mexico, Chaos on Our Doorstep Sol W. Sanders, 1989 Sol Sanders presents a panorama of Mexico's problems gives reasons for the current situation and explores the possible impact on the United States *Mexico and the United States* Southern Methodist University. Institute of Public Affairs. Conference, 1938 **Writings of Leon Trotsky** Leon Trotsky, 1969 **Research on the American Republics** United States. Department of State. Office of External Research, 1955 Soviet Union Political Reports, 1917-1970: 1964-1970, 2004 **The American Mercury**, 1952 **American Radicals and the Mexican Revolution, 1900-1925** Diana K.
