tragedies and literary career **Serpent in Eden** Fred C. Hobson Jr., 2017-10-10 The appearance in 1920 of H L Mencken's scathing essay about the intellectual and cultural impoverishment of the South The Sahara of the Bozart set off a firestorm of reaction in the region that continued unabated for much of the next decade In Serpent in Eden Mencken scholar Fred Hobson examines Mencken's love hate relationship with the South He explores not only Mencken's savage criticism of the region but also his efforts to encourage southern writers and the bold little magazines such as the Reviewer and the Double Dealer that started up in the South during the 1920s Originally published in 1974 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Civil Wars** Susan Goodman, 2003-06-02 In a work that recovers the broader meaning of manners for past generations Susan Goodman demonstrates that American writers have consistently tied the subject of national identity to the norms and behaviors of everyday life that in fact the novel of manners is a dominant form of American fiction **Twentieth Century American Literature** Warren French, 1980-11-01

Twentieth Century Fiction George Woodcock, 1983-04-01 **Our Conrad** Peter Mallios, 2010-09-21 Our Conrad is about the American reception of Joseph Conrad and its crucial role in the formation of American modernism Although Conrad did not visit the country until a year before his death his fiction served as both foil and mirror to America's conception of itself and its place in the world Peter Mallios reveals the historical and political factors that made Conrad's work valuable to a range of prominent figures including Fitzgerald Faulkner Richard Wright Woodrow Wilson and Theodore and Edith

Roosevelt and explores regional differences in Conrad's reception. He proves that foreign authored writing can be as integral a part of United States culture as that of any native. Arguing that an individual writer's apparent national gendered racial political identity is not always a good predictor of the diversity of voices and dialogues to which he gives rise this exercise in transnational comparativism participates in post Americanist efforts to render American Studies less insular and parochial.
