overused it tends to fall out of fashion Cynicism seems to be an exception Its polytropic versatility apparently prevents any

discontinuation of its application Everyone knows that cynicism denotes that which is deemed deleterious at a given time and

every time will specify its toxicities the apparent result being the term s non specificity This study describes the cynical

stance and statement so as to render the term s use scholarly expedient Close readings of textual sources commonly deemed

cynical provide a legible starting point A rhetorical analysis of aphorisms ascribed to the arch Cynic Diogenes facilitates

describing the design of cynical statements as well as the characteristic features of the cynical stance These patterns are

identifiable in later texts generally labeled cynical above all in Machiavelli s Principe With recourse to the Diogenical

archetype cynicism is likewise rendered describable in Graci n s Or culo manual Diderot s Le neveu de Rameau and

Nietzsche's Posthumous Fragments This study's description of cynicism provides a phenomenon otherwise considered amorphous with distinct contours renders transparent its workings and tenders a dependable basis for further analyses
