Steel For The Mind Samuel Johnson And Critical Discourse:

"Steel for the Mind" Charles H. Hinnant, 1994 In contrast to the views of many eighteenth century critics from Addison to Lord Kames Johnson maintains that mimesis necessarily implies the absence of what it purports to represent and thus can never achieve what Kames calls ideal presence [Samuel Johnson's Lives of the Poets](#) Edward L. Tomarken, 2024-08-31 This open access book seeks to explain how the literary commentary of the Lives of the Poets speaks to us today because of its ethical goals Edward Tomarken elucidates this element of Johnson's literary criticism by using Ralph Cohen's genre method the topic of Chapter One Why Genre Chapters two to five address the most prevalent genres of the Lives tragedy metaphysical poetry the epic the pastoral elegy and the mock epic Chapter six considers the rise of literary criticism as a genre Chapter Seven demonstrates how ethical genre criticism relates literature to life And the final chapter explains why although Johnson considers moral and ethical as nearly interchangeable terms Tomarken prefers ethical because it relates genre criticism to present problems in literary and non literary worlds **The World in Thirty-Eight Chapters or Dr Johnson's Guide to Life** Henry Hitchings, 2018-06-14 Hitchings is extremely good at unravelling Johnson's most bullish assertions lucid and empathetic scholarly but lively A model Johnsonian in fact The Times The World in Thirty Eight Chapters or Dr Johnson's Guide to Life is a source of profound good sense about what it means to teach read write and travel More than that though Henry Hitchings continually translates Samuel Johnson's experience of poverty scorn pain and madness into a rich understanding of how to be Samuel Johnson was a critic an essayist a poet and a biographer He was also famously the compiler of the first good English dictionary published in 1755 A polymath and a great conversationalist his intellectual and social curiosity were boundless Yet he was a deeply melancholy man haunted by dark thoughts sickness and a diseased imagination In his own life both public and private he sought to choose a virtuous and prudent path negotiating everyday hazards and temptations His writings and aphorisms illuminate what it means to lead a life of integrity and his experience abundantly documented by him and by others such as James Boswell and Hester Thrale is a lesson in the art of regulating the mind and the body Johnson's story touches on many themes that have enduring significance He was and remains a perceptive commentator on the vanity of human wishes the rewards and dangers of charity the need to cultivate kindness the complexities of family life especially marriage the effects of boredom and the fleeting nature of pleasure He writes and speaks incisively and humanely about the ego ambition hypocrisy fallibility and disorders of the mind as well as the corrosive effects of obsession the precariousness of fame and the skulduggery of the literary world **The Poetic Enlightenment** Rowan Boyson, 2015-10-06 The essays in this edited collection look at the role of poetry in the development of Enlightenment ideas As scholarly disciplines began to emerge anthropology linguistics psychology the ancient art of poetry was invoked to create new ways of defining and expanding this philosophy of human science [Johnson's Critical Presence](#) Philip Smallwood, 2017-07-05 Johnson's Critical Presence demonstrates how Johnson's criticism has for long been divided from the

issues of modern criticism by historical narratives that have marked the progress of criticism from classic to romantic The image of Johnson constructed by his immediate antagonists has been preserved by the routines of historical representation and mediated to the present day most recently by the characterizations of radical theory By an in depth analysis of major works by Johnson Smallwood argues that the historicization of eighteenth century criticism can be more fruitfully understood in the light of the dialogic and translational historiography of such thinkers as Collingwood and Ricoeur and that the contexts of Johnson s criticism must include the poetry he read as well as the theories he espoused In this way the book reinstates Johnson s presence as critic while displacing the history of ideas as the leading paradigm for conceptualizing the history of criticism

Minds in Motion Anne M. Thell, 2017-08-31 The central claim of *Minds in Motion* is that British travel writing of the long eighteenth century functions as an epistemological playing field where authors test empiricist models of engagement with the world while simultaneously seeking out the role of the self and the imagination in producing knowledge Whether exploring the relationship between the senses and the mind the narrative viability of experimental detachment or the literary dynamics of virtual witnessing eighteenth century travel authors persistently confront their positionality and raise difficult questions about the nature and value of first hand experience In one way or another they also complicate empiricist ideals by exploring the limits of individual perception and the role of the imagination in generating and relating knowledge While the genre is often viewed as either numbingly documentary or non literary and commercial travel literature actually operates at the front line of the period s intellectual developments illustrating both how individual writers grapple with philosophical ideals and how these ideals filter into the lives of ordinary people Indeed travel literature directly engages the scientific and philosophical concerns of the period while it is also widely avidly read as such it offers models for cognitive and rhetorical practices that are evaluated and either embraced or rejected by readers in a process of identification not unlike that which occurs in early English fiction Moreover because eighteenth century travel literature is so crucial to the development of so many fields from botany to the novel it illustrates vividly the divisive energies of discipline and genre formation while also archiving the shared aims and methods of what will become discrete fields of study Travelogues as diverse as Margaret Cavendish s *Blazing World* 1666 and Samuel Johnson s *Journey to the Western Islands of Scotland* 1775 reveal the epistemological circuitry of the eighteenth century and historicize the absorption of the philosophical tendencies that have come to define modernity

Law, Sensibility, and the Sublime in Eighteenth-century Women's Fiction Susan Chaplin, 2004 This work offers firstly a fresh historical philosophical and cultural interpretation of the relation between the eighteenth century discourse of sensibility the sublime and the theory and practice of eighteenth century law Secondly the work exposes and explores the influence of this combination of discourses upon the formation of gender identities in this period The author argues that it is only through a study of the convergence of these key eighteenth century discourses that changing conceptualisations of femininity can fully be understood Thirdly it examines the presence within eighteenth century

fiction by women of a new female subject Novels by women in this period Chaplin posits begin to reveal that the female subject position constructed through the discourses of law sensibility and the sublime gives rise for women to a feminine ontological crisis that may be seen to anticipate by two hundred years the trauma of the post modern male subject unable to present a unified subjectivity to himself or to the world This feminine crisis finds expression within a range of female fiction of the mid to late eighteenth century in Charlotte Lennox's anti romance satire Frances Sheridan's conduct book novels the Gothic romances of Radcliffe and Eliza Fenwick and the sensationalistic horror fiction of Charlotte Dacre Concentrating upon these writers Chaplin argues that their works speak of dread on behalf of women in this period and to varying degrees challenge discourses that construct femininity as a highly unstable barely tenable subject position Combining the works of Lyotard and Irigaray to formulate a new feminist reading of the eighteenth century discourse of the sublime this study offers fresh insights into the culture and politics of the eighteenth century It presents highly original readings of well known and lesser known literary texts that interrogate from fresh perspectives the complex theoretical issues pertaining to **The Eighteenth Century**, 2007 The Age of Johnson, 1988 John Keats and the Ideas of the Enlightenment Porscha Fermanis, 2009 This innovative study provides a major reassessment of Keats intellectual life by considering his often overlooked engagement with a formidable body of eighteenth century thought The Scriblerian and the Kit-Cats, 1994

Studies in Eighteenth-century Culture Syndy M. Conger, Julie Candler Hayes, 1996 The riches of this Miscellany and what could be a more appropriate genre for eighteenth century specialists to contrive together speak for themselves a dozen disciplines dance in pairs or singly to offer new insights into the texts and contexts of eighteenth century culture in America Britain and the European continent Together they also shed light on some of the ideas that captured our society's collective imagination in 1995 96 in the order that they occur pastoralism letters in and paintings Augustanism the aesthetic hysteria female alienation German Enlightenment libertinism corporeal limitations the limits of expression knowledge charity the moral wisdom Gothicism Since SECC readers selected these 16 essays from nearly 100 submissions to the annual last year it is also fair to say that they also represent some of the best conference papers heard at regional and the national meetings during that time from the Editor's Note **1650-1850**, 1994 **Transactions - Johnson Society** Johnson Society, 1984

Talking Forward, Talking Back Kevin Lee Cope, Rüdiger Ahrens, 2002 Critical theory is always retrospective when applied to works from earlier periods This text takes a new approach to the challenge of literary theory with respect to eighteenth century studies It looks at the way that literature of the period dealt with the question of the time of criticism **A Bibliography of Johnsonian Studies, 1986-1998** John T. Lynch, 2000 A bibliography of studies of Samuel Johnson from 1986 to 1998 Dr Lynch records not only writings about Johnson and Boswell but also about a wide variety of related topics There are nearly 2000 entries alphabetically arranged for easy access through the indexes Shakespeare Quarterly, 1997 **The Best Books for Academic Libraries**, 2002 Books recommended for undergraduate and college libraries listed by Library of
