The Great Moon Hoax Franklyn Mansfield Branley,1973      *A History of Ambition in 50 Hoaxes* Gale Eaton,2016-09-06

What do the Trojan Horse Piltdown Man Keely Motor Company and Ponzi Scheme have in common They were all famous hoaxes carefully designed and bolstered with false evidence The con artists in this book pursued a variety of ambitions making money winning wars mocking authority finding fame trading an ordinary life for a glamorous one but they all chose the lowest fastest road to get there Every hoax is a curtain and behind it is a deceiver operating levers and smoke machines to make us see what is not there and miss what is As P T Barnum knew you can short circuit critical thinking in any century by telling people what they want to hear Most scams operate on a personal scale but some have shaped the balance of world power inspired explorers to sail uncharted seas derailed scientific progress or caused terrible massacres A HISTORY OF AMBITION IN 50 HOAXES guides us through a rogue s gallery of hustlers liars swindlers imposters scammers pretenders and cheats In Gale Eaton s wide ranging synthesis the history of deception is a colorful tour with surprising insights behind every curtain Fountas Pinnell Level Z      **Wacky and Wonderful Misconceptions About Our Universe** Geoffrey Kirby,2018-05-25 From unicorns on the Moon to UFOs piloted by Martian bees this book chronicles some of the strangest ideas that have been put forward and have actually been believed in about our universe Drawn from tales dating from the Middle Ages to the present this collection of stories takes readers on an imaginative and wild ride through the ages and minds of some of the wackiest tackiest most outlandish concepts in astronomy cosmology and physics Follow along as Geoff Kirby recounts each quirky idea in detail and explains how these theories fare against modern astronomical research and technologies      **The Great Moon Hoax** S. L. Solon,1981\*      **President Donald Trump and His Political Discourse** Michele Lockhart,2018-10-26 President Donald Trump and His Political Discourse brings together a diverse collection of perspectives on President Trump s Twitter rhetoric Truly unique in its in depth exploration the volume demonstrates the ways in which international and U S relations media and fake news and marginalized groups among other things have been the subject of President Trump s tweets It also features qualitative quantitative analyses evaluating tweet patterns broader language shifts and the psychology of President Trump s Twitter voice The purpose of this collection is not only to analyze the language used but also to consider the ramifications of the various messages on both individual and global levels for which Trump is both celebrated and criticized Interdisciplinary in approach this collection is a useful resource for students in political rhetoric and communication international relations linguistics journalism leadership studies and more      *In Truth* Matthew Fraser,2020-03-27 From ancient Rome to the current Internet age this sweeping history of ideas explores how different epochs wrestled with the issue of truth and lies From the ancient Greeks and Romans to the modern era how have people determined what is true How have those with power and influence sought to control the narrative Are we living in a post truth era or is that notion simply the latest attempt to control the narrative The relationship between truth and power is

the key theme Moving through major historical periods the author focuses on notable people and events from well known leaders like Julius Caesar and Adolf Hitler to lesser known individuals like Procopius and Savonarola He notes distinct parallels in history to current events Julius Caesar s publication of his Gallic Wars and Civil Wars was an early exercise in political spin not unlike what we see today During the English Civil War and the Enlightenment pamphleteering coupled with the new power of the printing press challenged the status quo as online and social media does in our time And fake news was already being used by German chancellor Otto von Bismarck in nineteenth century Europe and by the yellow journalism of American newspaper magnates William Randolph Hearst and Joseph Pulitzer near the turn of the twentieth century The author concludes optimistically noting that we are debating and discussing truth more fiercely today than in any previous era The determination to arrive at the truth despite the manipulations of the powerful bodes well for the future of democracy
