

The Green Pope

Alfred Greenhill

The Green Pope:

The Green Pope Miguel Angel Asturias, 1971 The author who won the Nobel Prize for Literature tells the story of an ugly American George Maker Thompson Thompson was a pirate in the Caribbean but feels that he s wasted his time as a pirate on the sea and that making money on the water will not lead to the riches that he wants to accumulate It s not a particularly secret wisdom that those who have wealth are likely to have power too After all it s money that makes the world go round at least a materialistic world like ours Little wonder that our society produces considerable numbers of men and women whose primary goal in life is to gain money and ever more money In *The Green Pope* by Miguel ngel Asturias Guatemalan winner of the Nobel Prize in Literature 1967 for his vivid literary achievement deep rooted in the national traits and traditions of Indian peoples of Latin America a young American who cares for nothing but wealth and power starts a banana plantation in Guatemala mercilessly ruining driving out or even killing small local farmers and opponents on his rise Neither the suicide of his fianc the death of his wife in childbirth or the pregnancy of his unmarried daughter make him reconsider his priorities Literature Suppressed on Political Grounds Nicholas J. Karolides, Margaret Bald, 2014-05-14 Literature Suppressed on Religious Grounds Revised Edition profiles the censorship of many such essential works of literature The entries new to this edition include extensive coverage of the Harry Potter series which has been frequently banned in the United States on the grounds that it promotes witchcraft as well as entries on two popular textbook series *The Witches* by Roald Dahl *Women Without Men* A Novel of Modern Iran and more Also included are updates to such entries as *The Satanic Verses* by Salman Rushdie and *On the Origin of Species* by Charles Darwin El papa verde. The green pope ... Translated ... by Gregory Rabassa Miguel Angel Asturias, Gregory Rabassa, 1971 **The Works of William Shakespeare: Timon of Athens. Julius Caesar. Macbeth. Hamlet** William Shakespeare, 1892 **The Works of William Shakespeare: Macbeth** William Shakespeare, 1894 **Catholicism and Liberal Democracy** James Martin Carr, 2022-11 Catholicism and Liberal Democracy seeks to clarify if there is a place for Catholicism in the public discourse of modern liberal democracy bringing secular liberalism as articulated by J rgen Habermas into conversation with the Catholic tradition James Martin Carr explores three aspects of the Catholic tradition relevant to this debate the Church s response to democracy from the nineteenth century up until the eve of the Second Vatican Council the Council s engagement with modernity in particular through *Gaudium et spes* and *Dignitatis humanae* and Joseph Ratzinger s theology of politics as a particularly incisive and influential articulation of the Catholic tradition in this area J rgen Habermas s theorization of the place of religion in modern democracy both in his earlier secularist phase and after his post secular turn is evaluated The adequacy of Habermas s recent attempts to accommodate religious citizens are critically examined and it is argued that developments in his later thought logically require a more thoroughgoing revision of his earlier theory These developments it is argued create tantalizing openings for fruitful dialogue between Habermas and the Catholic tradition Using analytical tools drawn from

communications theory the debates on same sex marriage at Westminster and in the Irish referendum campaign are analyzed assessing whether Catholic contributions to these debates comply with Habermasian rules of civic discourse In light of this analysis the prospects of and impediments to Catholic participation in public discourse are appraised Carr concludes by proposing a Ratzingerian critique of contemporary attempts to redefine marriage within a broader more fundamental critique of the modern democratic state as currently configured A political system founded upon secularist monism cannot but regard Christian Gelasianism and its Catholic variant in particular as an existential threat Thus Catholics however Habermasian their political behavior can never be more than uneasy bedfellows with modern liberal democracy
