**Stats Baseball Scoreboard, 1993** John Dewan, Don Zminda, 1993-02-01 **Leadoff Batters of Major League Baseball** Herman O. Krabbenhoft, 2015-03-18 Every sport has its subtleties and in baseball one subtlety is the batting line up Leadoff batters can make or break a team Who are the men who have taken that position and how have they performed in their important role From 1900 through 2005 the major leagues leadoff batters for more than 160 000 games are covered in this reference work The first of the book s five parts discusses the annual records of the principal leadoff batters Part Two identifies the principal leadoff batter for each team in each year as well as the top career leadoff batters Part Three presents composite statistics for those players with five or more principal leadoff batter seasons Part Four looks at leadoff home runs and Part Five offers essays on assorted leadoff batter achievements such as RBIs runs scored and awards and honors Appended to the text is a discussion of the accuracy of the statistics and a list of Make It Happen award winners *Stats Player Profiles, 1993* STATS Inc, STATS, Inc. Staff, 1992-11 *Baseball's All-Time Best Hitters* Michael J. Schell, 2013-12-03 Tony Gwynn is the greatest hitter in the history of baseball That s the conclusion of this engaging and provocative analysis of baseball s all time best hitters Michael Schell challenges the traditional list of all time hitters which places Ty Cobb first Gwynn 16th and includes just 8 players whose prime came after 1960 Schell argues that the raw batting averages used as the list s basis should be adjusted to take into account that hitters played in different eras with different rules and in different ballparks He makes those adjustments and produces a new list of the best 100 hitters that will spark

debate among baseball fans and statisticians everywhere Schell combines the two qualifications essential for a book like this He is a professional statistician applying his skills to cancer research and he has an encyclopedic knowledge of baseball He has wondered how to rank hitters since he was a boy growing up as a passionate Cincinnati Reds fan Over the years he has analyzed the most important factors including the relative difficulty of hitting in different ballparks the length of hitters careers the talent pool that players are drawn from and changes in the game that raised or lowered major league batting averages the introduction of the designated hitter and changes in the height and location of the pitcher s mound for example Schell s study finally levels the playing field giving new credit to hitters who played in adverse conditions and downgrading others who faced fewer obstacles His final ranking of players differs dramatically from the traditional list Gwynn for example bumps Cobb to 2nd place Rod Carew rises from 28th to 3rd Babe Ruth drops from 9th to 16th and Willie Mays comes from off the list to rank 13th Schell s list also gives relatively more credit to modern players containing 39 whose best days were after 1960 Using a fun conversational style the book presents a feast of stories and statistics about players ballparks and teams all arranged so that calculations can be skipped by general readers but consulted by statisticians eager to follow Schell s methods or introduce their students to such basic concepts as mean histogram standard deviation p value and regression Baseball s All Time Best Hitters will shake up how baseball fans view the greatest heroes of America s national pastime
