Tyner-Mullings, 2015-11-17 Enter the Alternative School is an in-depth examination of public school alternatives to traditional educational models in the US. This book analyses how urban education can respond to a system growing increasingly standardised and privatised. As an example Central Park East Secondary School (CPESS) a public alternative schooling model successfully served predominantly low-income and minority students. It also changed the New York City public school system while promoting methods that allowed educational institutions to make changes in the lives of their students. Written by a sociologist who was both a student at CPESS and a teacher at a school developed from the CPESS model the book analyses education from a range of vantage points assesses outcomes and invites readers to consider the potential of alternative educational models to address the challenges of reforms that attempt to provide quality education to the low-income and minority students otherwise under-served by public schools. *The Alternative Tradition* James Thrower, 1980 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non-Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics.
