*The Laity as Participants in the Mission of the Church* Humphrey C. Anameje, 2017-06-05 The church is made up of both the clergy and the laity And for it to properly fulfill the mission for which it was instituted by Christ all its members each according to his or her God given gift must contribute both to the upbuilding of the church and to its mission On the part of the laity their active participation in the general mission of the church ad intra and ad extra has been a great challenge in the life and practice of the church throughout its history The Second Vatican Council in its spirit of aggiornamento makes some positive difference This work critically examines the conciliar documents some relevant postconciliar documents and theological reflection of some theologians And finally it proffers solutions that will enhance the active participation of the laity in the mission of the church in general and the church in Southeast Nigeria in particular [ISG 46: African Theology on the Way](#) Diane B. Stinton, 2011-01-01 Stinton has edited the work of prominent African theologians making their writings accessible at an introductory level Some African scholars have written new pieces for the book others have given permission for articles to be condensed and simplified in style Kwame Bediako Benezet Bujo Philomena Mwara and Isabel Phiri are just four of the theologians featured

**The Eucharist and World Hunger** Izunna Okonkwo, 2011-12-21 Hunger is a menace in different parts of the globe It has more unnatural than natural causes Though efforts have been made towards alleviating its causes and consequences more actions still need to be taken for its genuine alleviation and eventual eradication in the world For Joseph Grassi painful hunger is a daily occurrence that must be countered by ongoing effective programs that enter into the lives of every Christian Such position not only recognises the frequency and excruciating nature of hunger but also suggests that Christians and other religious groups have a very important role to play in order to eradicate hunger and its devastating effects This book explores the nuances of hunger its causes dimensions and approaches as well as its connection to the Eucharist It argues that hunger can be eradicated and that the Eucharist stands out as a veritable model

**Bioethics Around the Globe** Catherine Myser, 2011-06-10 Contemporary bioethics now roughly 40 years old as a discipline originated in the United States with a primarily Anglo American cultural ethos It continues to be professionalized and institutionalized as a maturing discipline at the intersections of philosophy medicine law social sciences and humanities Increasingly bioethics along with its foundational values concepts and principals has been exported to other countries not only in the developed West but also in developing and or Eastern countries Bioethics thus continues to undergo intriguing transformations as it is globalized and adapted to local cultures These processes have occurred rapidly in the last two decades with relatively little reflection and examination This volume brings together contributors from a wide variety of disciplines to take a critical empirical look at bioethics around the globe examining how it is being transformed at both local and global levels in this process of cross cultural exporting and importing One concern is to identify sociocultural forces and consequences which may positively or negatively affect ethics and social justice goals This book thereby offers the first

comparative anthropology and sociology of globalizing bioethics in the field exploring the global dissemination local adaptations cultural meanings and social functions of bioethics theories practices and institutions and comparing developed and developing countries The volume considers a full range of countries on every inhabited continent including Africa Asia Australia Central and South America Europe the Middle East and North America Topics include government agendas such as nationalism and nation building agendas of powerful associated professions e g medicine law theological and political agendas such as culture wars agendas of entrepreneurial economies of profit and other cultural and ideological agendas consciously or unconsciously advanced or contested by bioethics work in particular countries based on their unique history politics and culture This cross cultural exploration of globalizing bioethics will be of great interest to a field that is increasingly introspective about its underlying sociocultural assumptions and biases At last an unabashedly sociological and anthropological look at the globalization of bioethics a really fresh approach to a maturing discipline The chapters speak from the perspective of sophisticated Western developed exporters of the bioethical paradigm and equally sophisticated Eastern developing and third world and interdisciplinary critics suspicious of the canonical view Trained in the dominant school of American mainstream philosophy Myser draws on her long standing commitment to a social and cultural approach to bioethics to take a fresh look at bioethics globally She grasps the globalization of bioethics and the skepticism about analytical philosophy s Americanized consensus The book sets the stage for a new era in bioethics theory and practice debating whether a universal common morality underlies the rich variation in national and cultural bioethics traditions Robert Veatch Georgetown University This path breaking volume is the first to explore the global export of Western bioethics to a variety of non Western settings Explicitly critical the book also points to the liberating potential of bioethics to achieve social justice and improve the lives of patients around the world The book is a must read for all medical anthropologists interested in bioethics Marcia Inhorn Yale University Bioethics Around the Globe should change the way bioethics is conceived and practiced in the U S and elsewhere Its rich and wide ranging comparative examination opens new possibilities for bioethical reflection I enthusiastically recommend this wonderful book James F Childress University of Virginia The past 40 years have seen a remarkable spread of bioethics to every part of the world Dr Myser s collection is a wonderful and rich exploration of its international impact revealing important similarities and differences from country to country It will have an important impact Daniel Callahan The Hastings Center The African Synod Chukwudum Barnabas Okolo, 1994 **African Liberation Theology** Chukwudum Barnabas Okolo, 1997 **The Face of Africa** Stan Chu Ilo, 2012-12-01 A technical insight to Africa s development United Nations Conference for Trade and Development UNCTAD Geneva This book is good news and a compelling work of our times It creates hope challenges despair re establishes authentic human development and original African values Prof Obiora Ike Catholic Institute for Development Justice and Peace Nigeria A very precious contribution to Christian conversation on the future of Africa by a young African researcher Prof Benezet Bujo Chair Centre
