Gareth A. Burgess

How To Lie With Charts:

How to Lie with Charts Gerald E. Jones, 2000 Now available in Barnes Noble stores nationwide By exposing the tricks of the trade How to Lie with Charts shows you how to create effective truthful presentations and how to spot deceptive ones

How to Lie with Charts Gerald Everett Jones, 2018-10-07 This is the new edition of the definitive textbook on data visualization There's added material on fake news and social media disinformation misinterpretation of metadata and the uses and abuses of Big Data If you're using a computer to generate charts for meetings and reports you don't have to be taught how to lie you're already doing it You probably don't know your charts are unreliable and neither does your audience So you're getting away with it until a manager or a sales prospect or an investor makes a bad decision based on the information that you were so helpful to provide The main focus of How to Lie with Charts is on the principles of persuasive and undistorted visual communication It's about careful thinking and clear expression So don't blame the computers People are running the show

Markets Using Chart Techniques Gareth A. Burgess,2010-02-09 The financial markets are made up of people from very diverse backgrounds but whether by long or short term investment these market participants all have a desire to win by varying degrees Many market participants especially short term traders are often too interested in the release of some fundamental statement or some rumor or the latest bank recommendations than in the trading price of the asset which leads them to trade and fail because of emotions based trading The daily price movements the patterns the volatility that appear on charts are for whatever reason the results of the actions of the crowd To avoid making decisions based on heightened emotions it is necessary to create your own plan based on your own analysis This book has been developed to demonstrate how a few relatively straight forward techniques can create a plan that does not rely on outside investment recommendations and therefore takes the emotions out of trading The book demonstrates how to interpret the market price action in the shape of forms or patterns and Japanese candlesticks to help you Find markets that are changing from bullish to bearish and from bearish to bullish Locate entry and exit points Monitor the position for signs of change The book provides a series of charting techniques involving the use of candlesticks as graphical representations of market price actions in the Foreign Exchange markets It presents methods of chart technical analysis for medium to long term investing in a market where despite strong returns when compared with other asset types it is difficult to realize a profitable return The title does not dwell on already known signals represented by candlestick formations but concentrates instead on how to confirm these signals by applying a variety of confirmation techniques which form a step by step process through the chapters of the book to finish by Putting It All Together [Graphs Don't Lie](#) Lee Baker, Graphs Don t Lie How to Lie with Graphs and Get Away With It Discover the hidden world of misleading graphs with Graphs Don t Lie How to Lie with Graphs and Get Away With It This book is your warm friendly guide to understanding how graphs and charts can be manipulated and how you can spot these tricks before

they deceive you Ever wondered how a pie chart can make it look like 193% of people support a candidate or how a graph can show that 34 is smaller than 14 In this engaging and humorous book award winning statistician Lee Baker reveals the secrets behind graphical lies and pictorial deceits You ll learn how numbers can be twisted to mislead and misinform whether in political campaigns media reports or corporate presentations Packed with real world examples Graphs Don t Lie uncovers how politicians the press and corporations use graphs and charts to deceive their audiences From inflated gun death statistics to misleading anti abortion figures this book shows you the techniques used to distort the truth and how to see through them Benefits of this book Spot misleading graphs Understand the common techniques used to manipulate visual data Evaluate data critically Gain insights into how data can be misrepresented for political or commercial gain Enhance your data literacy Become a savvy consumer of statistical information Enjoy a humorous and engaging read Complex concepts are made accessible and entertaining Written in plain English and perfect for beginners Graphs Don t Lie combines humor with instruction to keep you informed and entertained This book will change the way you look at graphs and charts making you more critical and discerning Get ready to dive into the world of data visualization tricks learn to spot fake graphs and become skilled at understanding graphs and detecting data deceit By identifying misleading data you ll become an expert in recognizing graph tricks and data misinterpretation Be aware of media statistics deception and corporate data manipulation and understand political graph tricks Boost your statistical literacy and learn to see through data presentation lies Don t be misled by deceptive visuals Grab your copy of Graphs Don t Lie today and start seeing through the lies
