## **Soviet Media In Transition Structural And Economic Alternatives:**

**Soviet Media in Transition** Elena Androunas, 1993-09-21 This study written by a Russian expert on the media analyzes the unique role of the mass media television and the press in the social political and economic changes that began in the Soviet Union in 1985 under the name of perestroika and culminated recently in the country's dissolution. In addition, the work examines the restructuring of the media from mouthpiece of the Communist Party to independent commentator. By viewing the struggle for control of the media as reflective of the country's political turmoil, the author provides a fascinating insight into the ways and means of Russian politics. *De media in maatschappelijk perspectief* Frieda Saeys, Hans

Verstraeten, 2005 **Media and Power in Post-Soviet Russia** Ivan Zassoursky, 2016-09-16 This book describes the rise of independent mass media in Russia from the loosening of censorship under Gorbachev's policy of glasnost to the proliferation of independent newspapers and the rise of media barons during the Yeltsin years. The role of the Internet, the impact of the 1998 financial crisis, the succession of Putin and the effort to reimpose central power over privately controlled media empires mark the end of the first decade of a Russian free press. Throughout the book, there is a focus on the close intermingling of political power and media power as the propaganda function of the press in fact never disappeared but rather has been harnessed to multiple and conflicting ideological interests. More than a guide to the volatile Russian media scene and its players, *Media and Power in Post-Soviet Russia* poses questions of importance and relevance in any functioning democracy.

**Internationalizing Media Studies** Daya Kishan Thussu, 2009-05-15 This collection of essays by leading scholars from around the world aims to stimulate a debate about the imperatives for internationalizing media studies and provides much needed material on the dynamics of the media studies field in a global context. Lively and current case studies are included within the essays to exemplify the main arguments. **Globalisation, Freedom and the Media after Communism** Birgit Beumers, Stephen Hutchings, Natalia Rulyova, 2013-10-18 This book examines the fate of post-Soviet press freedom and media culture in the context of the growing impact of globalisation. To understand the complicated situation that has arisen with respect to these issues in post-Soviet space is impossible without collaboration between political scientists, sociologists, cultural analysts, media studies researchers and media practitioners. The book is one of the first attempts to bridge the gaps between political and cultural studies approaches, between textual analysis and audience research, as well as between practitioner-led and scholarly approaches to the post-Soviet media. The cumulative impact of the essays contained in this section is to reinforce the intuition which inspired it: that the post-Soviet media remain a highly heterogeneous complex and dynamic field for investigation. With contributions from scholars and journalists across Europe, including the former Soviet Union, the collection addresses such issues as censorship and elections, the legacy of the Soviet past, terrorism and the media, the post-Soviet business press, advertising and nation building, official press discourse and entrepreneurship, and global formats on Russian television. This book was originally published as a special issue of *Europe Asia Studies*.

Arutunyan, 2009-09 The Media in Russia is an introductory volume for students of various fields including Russian studies media studies and political science It explores the media landscape and sets out to identify the chief challenges that Russian journalists have grappled with throughout the 300 year history of the Russian press **Media & Open Societies**, 2000 Traditional national and medium specific regulatory models in communications policy in the East and West have become outdated New medium neutral and internationally oriented regulatory models are replacing them This book discusses how these new regulatory models can contribute to the emergence of an open society that is a society in which all have access to society's information and communication resources in a non discriminatory and affordable way Experts from the Faculty of Journalism of Moscow State University The Amsterdam School of Communications Research ASCoR of the University of Amsterdam and other experts from Finland the United Kingdom and Belgium address this question The papers in this volume discuss key issues in the development of communications policies for open societies These issues focus on the social responsibilities of media in a changing society the role of competition in stimulating media innovation and diversity and the potential of new media in strengthening user's autonomy and empowerment Expressing different historical contexts the editors approach the issues from very different perspectives but with the common objective of understanding the converging media dynamics in East and West The resulting mix contributes to the debate surrounding the communications policies that will stimulate the development of global openness in the 21st century **Southwestern Mass Communication Journal**

, 1996 **Russian Reports** Jan Ekecrantz, Kerstin Olofsson, 2000 **Choice**, 1994 *The Regional Newspaper in Post-Soviet Russia* Jukka Pietiläinen, 2002 Tiivistelmä Resumo en Esperanto Rezjume **Javnost**, 2004 Unglued Empire

Gladys D. Ganley, 1996 Ganley has marshaled an extraordinary range and volume of information and presents the story with both clarity and drama *Unglued Empire* offers a gold mine of case study data for scholars analyzing the interplay of politics and modern communication technology *ITechnology and Culture* There is no doubt that the growing availability of television and its technology which made it possible to report scenes instantly did have an impact on the collapse of the Soviet Union Mikhail Gorbachev decided that his country needed a dose of openness or Glasnost to modernize society and make the people more supportive of his efforts In the end more information about the outside world as well as the inside world helped to bring down the communist party and the Soviet government This book documents this process showing how the media's ready availability became such a divisive force in the Soviet Union Instead of creating a more structured rigid regime it did just the opposite The Soviet Union may well have collapsed of its own weight sooner or later but there is no doubt that the media technology and communications accelerated the process a form of uskoreniie that Gorbachev never intended Many of the events described in this study have application to other researchers and government officials The study makes it possible to understand some of the new challenges that regimes wary of criticism will have to face in the future **Business as Usual**

David L. Paletz, Karol Jakubowicz, 2003 This volume is the successor to *Glasnost and After 1995* a study which examined the relationships between the media and change in Central and Eastern Europe With developments in that region proceeding apace a follow up book became essential Ten case studies each devoted to a particular country follow the introductory section Each contributor describes and evaluates the changes and development of their media system in terms of its placement on the subordination autonomy and dominance pluralism continua and in the context of a general appraisal of the evolution of the political system and the fit between the two The final section deals with issues tolerance feminism and the Internet not customarily included in research on the media in this region *Political History and Culture of Russia* ,1997

Scholarly articles dealing with political events in Russia up to 1991 *Political History of Russia* ,1994 **Editor & Publisher** ,1990-07 Directory of interactive products and services included as section 2 of a regular issue annually 1995
