## Space And The Self In Humes Treatise:

**Space and the Self in Hume's Treatise** Marina Frasca-Spada,2002-04-11 A rich and original examination of Hume's discussion of the idea of space     *Hume's Imagination* Tito Magri,2022 Tito Magri proposes a new systematic interpretation of David Hume's account of the imagination in his Treatise of Human Nature. This has revisionary implications for the understanding of Hume's philosophy particularly his philosophy of mind naturalism epistemology and stance to scepticism

**David Hume's Critique of Infinity** Dale Jacquette,2001 This new study of David Hume's philosophy of mathematics critically examines his objections to the concept of infinity and his alternative phenomenalist theory of space and time as constituted by minima sensibilia or sensible extensionless indivisibles     *Imagined Causes: Hume's Conception of Objects* Stefanie Rocknak,2012-09-14 This book provides the first comprehensive account of Hume's conception of objects in Book I of A Treatise of Human Nature. What according to Hume are objects Ideas Impressions Mind independent objects All three None of the above Through a close textual analysis Rocknak shows that Hume thought that objects are imagined ideas But she argues he struggled with two accounts of how and when we imagine such ideas On the one hand Hume believed that we always and universally imagine that objects are the causes of our perceptions On the other hand he thought that we only imagine such causes when we reach a philosophical level of thought This tension manifests itself in Hume's account of personal identity a tension that Rocknak argues Hume acknowledges in the Appendix to the Treatise As a result of Rocknak's detailed account of Hume's conception of objects we are forced to accommodate new interpretations of at least Hume's notions of belief personal identity justification and causality

## **Hume's 'New Scene of Thought' and The Several Faces of David Hume in the Dialogues Concerning Natural Religion** John O. Nelson,2009-12-10 Hume's New Scene of

Thought is a defense of Hume's philosophical principles in the Treatise of Human Nature Nelson shows that Hume's new philosophy was a uniquely original and profound work a masterpiece in philosophical literature and a work worthy of serious study and acceptance Expounding on the meaning that Hume gives to his new science of man founded on an empirical foundation it is shown that all the sciences were in effect nothing more than branches of introspective psychology The thesis of The Several faces of David Hume in The Dialogues Concerning Natural Religion is that Dialogues is a reflective philosophical autobiography of Hume himself Every character represents Hume at some stage in his life Pamphilus is Hume at fifteen and Philo is Hume in his adult philosophical maturity Cleanthes is Bishop Butler but also Hume when Hume was under the sway of Butler's writings as a young man Demea represents the orthodox religious views that Hume was raised on which Hume rejected by his eighteenth year     *Hume: A Guide for the Perplexed* Angela M. Coventry,2007-07-24 A student guide that covers the full range of Hume's major works and ideas including detailed examination of his influential contributions to epistemology and metaphysics     *Locke on Persons and Personal Identity* Ruth Boeker,2021-03-01 Ruth Boeker offers a new perspective on Locke's account of persons and personal identity by considering it within the context of

his broader philosophical project and the philosophical debates of his day Emphasizing the importance of the moral and religious dimensions of his view Boeker argues that to take seriously Locke's general approach to questions of identity we should consider his account of personhood separately from his account of personal identity over time On this basis she argues that Locke endorses a moral account of personhood according to which persons are subjects of accountability and that his particular thinking about moral accountability explains why he regards sameness of consciousness as necessary for personal identity over time In contrast to some neo Lockean views about personal identity Boeker argues that Locke's account of personal identity is not psychological per se but rather his underlying moral religious metaphysical and epistemic background beliefs are relevant for understanding why he argues for a consciousness based account of personal identity Taking his underlying background beliefs into considerations not only sheds light on why many of his early critics do not adopt Locke's view but also shows why his view cannot be as easily dismissed as some of his critics assume

**Hume's Place in Moral Philosophy** Nicholas Capaldi,1989 Eighteenth century British moral philosophy focused on three issues a moral apprehension b moral motivation and c the relationship of moral apprehension to moral motivation Hume resolved these issues by a Copernican revolution in which the basic perspective is that of an engaged and socially responsible agent as opposed to the classic philosophical perspective of the disengaged theoretician As a consequence he could distinguish clearly the cognitive from the affective elements in moral apprehension identify the non moral origins of moral motivation and account for the growth of the moral perspective through sympathy Mind ,2001 Includes papers of the Aristotelian Society 1896 1900 **Essays: Moral, Political, and Literary: My own life; Letter from Adam Smith to William Strahan; History of the editions; List of editions; Essays pt.
