## **Spains Long Shadow The Black Legend Off Whiteness And Anglo American Empire:**

**Spain's Long Shadow** María DeGuzmán,2005 Reveals the dependence of American ethnic identity on Spain and Spanish imperialism    **Encyclopedia of the Atlantic World, 1400-1900** David Head,2017-11-16 A first of its kind reference resource traces the interactions among four Atlantic facing continents Europe Africa and the Americas including the Caribbean between 1400 and 1900 Until recently the age of exploration and empire building was researched and taught within imperial and national boundaries The histories of Europe Africa North America and South America were told largely as independent stories with the development of individual places within each continent further separated from each other The indigenous populations of places colonized by Europeans fit into the history even more uneasily often mentioned only in passing Encyclopedia of the Atlantic World 1400 1900 synthesizes a generation of historical scholarship on the events on four continents providing readers an invaluable introduction to the major people places events movements objects concepts and commodities of the Atlantic world as it developed during a key period in history when the world first started to shrink The entries discuss specific topics with an eye toward showing how individual items people and events were connected to the larger Atlantic world This accessibly written reference book brings together topics usually treated separately and discretely alleviating the need for extra legwork when researching and it draws from the latest research to make a vast body of scholarship about seemingly far flung places available to readers new to the field    **Understanding Flusser,**

**Understanding Modernism** Aaron Jaffe,Michael F. Miller,Rodrigo Martini,2021-11-18 The Czech Brazilian philosopher Vilém Flusser 1920 1991 has been recognized as a decisive past master in the emergence of contemporary media theory and media archeology His work engages and also rethinks several mythologies of modernity devising new methodologies experimental literary practices and expanded hermeneutics that trouble traditional practices of literary literate knowledge shared experience reception and communication Working within an expanded concept of modernism Flusser presciently noted the power inherent in algorithmic information apparatuses to reshape our fundamental conceptions of culture and history In an increasingly technological world Flusser s form of experimental theory fiction pits philosophy against cybernetics as it forces the category of the human to confront the inhuman world of animals and machines The contributors to Understanding Flusser Understanding Modernism engage with the multiplicity of Flusser s thought as they provide a general analysis of his work engage in comparative readings with other philosophers and offer expanded conceptualizations of modernism The final section of the volume includes an extended glossary clarifying the playful terminology used by Flusser which will be a valuable resource for experts and students alike    **The Oxford Handbook of Edgar Allan Poe** J. Gerald Kennedy,Scott Peeples,2018-12-07 No American author of the early 19th century enjoys a larger international audience than Edgar Allan Poe Widely translated read and studied he occupies an iconic place in global culture Such acclaim would have gratified Poe who deliberately wrote for the world at large and mocked the provincialism of strictly nationalistic

themes Partly for this reason early literary historians cast Poe as an outsider regarding his dark fantasies as extraneous to American life and experience Only in the 20th century did Poe finally gain a prominent place in the national canon Changing critical approaches have deepened our understanding of Poe s complexity and revealed an author who defies easy classification New models of interpretation have excited fresh debates about his essential genius his subversive imagination his cultural insight and his ultimate impact urging an expansive reconsideration of his literary achievement Edited by leading experts J Gerald Kennedy and Scott Peeples this volume presents a sweeping reexamination of Poe s work Forty five distinguished scholars address Poe s troubled life and checkered career as a magazinist his poetry and prose and his reviews essays opinions and marginalia The chapters provide fresh insights into Poe s lasting impact on subsequent literature music art comics and film and illuminate his radical conception of the universe science and the human mind Wide ranging and thought provoking this Handbook reveals a thoroughly modern Poe whose timeless fables of peril and loss will continue to attract new generations of readers and scholars

[Forgotten Futures, Colonized Pasts](#) Cara Anne Kinnally,2019-05-17

[Forgotten Futures Colonized Pasts](#) traces the existence of a now largely forgotten history of inter American alliance making transnational community formation and intercultural collaboration between Mexican and Anglo American elites This communion between elites was often based upon Mexican elites own acceptance and reestablishment of problematic socioeconomic cultural and ethno racial hierarchies that placed them above other groups the poor working class indigenous or Afro Mexicans for example within their own larger community of Greater Mexico Using close readings of literary texts such as novels diaries letters newspapers political essays and travel narratives produced by nineteenth century writers from Greater Mexico [Forgotten Futures Colonized Pasts](#) brings to light the forgotten imaginings of how elite Mexicans and Mexican Americans defined themselves and their relationship with Spain Mexico the United States and Anglo America in the nineteenth century These lost discourses long ago written out of official national narratives and discarded as unrealized or impossible avenues for identity and nation formation reveal the rifts fractures violence and internal colonizations that are a foundational but little recognized part of the history and culture of Greater Mexico Published by Bucknell University Press Distributed worldwide by Rutgers University Press

[Race in Mind](#) Paul Spickard,2015-11-19 These essays analyze how race affects people s lives and relationships in all settings from the United States to Great Britain and from Hawai i to Chinese Central Asia They contemplate the racial positions in various societies of people called Black and people called White of Asians and Pacific Islanders and especially of those people whose racial ancestries and identifications are multiple Here for the first time are Spickard s trenchant analyses of the creation of race in the South Pacific of DNA testing for racial ancestry and of the meaning of multiplicity in the age of Barack Obama

**[Volatile Whiteness](#)** Martin Repinecz,2025-01-31 The decades spanning from the 1960s to the 1980s in Spain were marked by a series of significant changes a flourishing economy fuelled by tourism widespread migration from rural areas to cities the dissolution of the African empire evolving

gender and sexual norms and a political transition from dictatorship to democracy Volatile Whiteness argues that throughout this period popular film genres such as comedies crime thrillers musicals and religious cinema aimed to erode the racialized image of Spain as an Africa of Europe and establish the nation's belonging in global whiteness The book explores how popular films shaped the attitudes of Spanish audiences towards racialized groups even before the onset of mass immigration in the 1990s and traces the construction of the Roma community as an internal threat to the nation's upward mobility during late Francoism and the subsequent Transition The book examines films that have retained popularity among contemporary Spanish audiences due to their continued circulation on television and other platforms In doing so Volatile Whiteness reflects not only on the meanings that popular films of the past may have had for their original audiences but also on the ways they may shape the lived experiences of racial minorities in Spain today
