Spaniards Woman Foreign Affairs:

The Spaniard's Woman Diana Hamilton, 2010-09-01 The Spaniard's virgin Sebastian Garcia is shaken by the overwhelming attraction he feels for Rosie Lambert. Maybe it's because she seems innocent and trustworthy so unlike the many fortune hunters who've pursued him before. Soon Sebastian makes Rosie his woman. So how can Rosie tell him the real reason for her sudden appearance in his life when it could destroy his faith in her? And she may be pregnant with his child.

Science, Culture and National Identity in Francoist Spain, 1939-1959 Marició Janué i Miret, Albert Presas i Puig, 2021-04-24 This book examines the role that science and culture held as instruments of nationalization policies during the first phase of the Franco regime in Spain. It considers the reciprocal relationship between political legitimacy and developments in science and culture and explores the nationalization efforts in Spain in the 1940s and 1950s via the complex process of transmitting narratives of national identity through ideas, representations and homogenizing practices. Taking an interdisciplinary approach, the volume features insights into how scientific and cultural language and symbols were used to formulate national identity through institutions, resource distribution and specific national policies. Split into five parts, the collection considers policies in the Francoist New State, the role of women in these debates and perspectives on the nationalization and internationalization efforts that made use of scientific and cultural spheres. Chapters also feature insights into cinema, literature, cultural diplomacy, mathematics and technology in debates on Catalonia, the Nuclear Energy Board, the Spanish National Research Council and how scientific tools in Spain in this era fed into wider geopolitics with America and onto the UNESCO stage. **Report of the Committee ... Transnational Islam in Interwar Europe Götz Nordbruch, 2014-06-05 The book examines Muslim-European interactions in the interwar period and provides original insights into the emergence of geopolitical and intellectual East-West networks that transcended national, cultural and linguistic borders. Under Fire: Women and World War II Eveline Buchheim, Ralf Futselaar, 2014 Since the 1970s when the dominance of military histories of the World Wars ended and social historical histories of conflict rose to prominence, women have come to play an increasingly important role in mainstream stories about the Second World War. Although this is undeniably a valuable development, the perspectives on women that arose have in many respects remained limiting, although in new ways. Women have been portrayed as carers, as victims, notably of sexual violence, but rarely as agents of their own fate. This volume focuses on this last group. In spite of the undeniable suffering and victimization that befell so many women during the war, for others the war also opened opportunities and awakened ambitions. The articles in this volume, which cover both Europe and Asia, bring together some of

the women who took initiatives of which they sometimes suffered the dire consequences sometimes enjoyed the fruits
