The New World Religion:

Modern Medicine - The New World Religion Olivier Clerc, 2004 Put forth in this book is the assertion that medicine is actually ruled by a set of beliefs myths and rites of Christianity it has never freed itself from Supporting this claim are discussions about the ways in which physicians have taken the place of priests vaccination plays the same role as baptism the search for health has replaced the quest for salvation and the hope of physical immortality cloning and genetic engineering takes priority over eternal life This book argues that the medical establishment has become the government's ally as the Catholic Church has in the past Charlatans are prosecuted today as heretics were in the past and dogmatism rules out promising medical theories It contends that only by becoming aware of how religious beliefs and primitive fears unconsciously influence one's relationships with medicine can people start walking on the path of freedom personal responsibility and individual sovereignty

A One World Religion is Coming Leslie Dutcher, 2024-05-22 The Bible prophesies a one world religion is coming Scripture tells us that in the end time there will be a one world government a one world religion and a one world economic system This book discusses the efforts both past and present to establish the prophesied one world religion of the False Prophet
