Soviet Intervention In Czechoslovakia 1968 Anatomy Of A Decision:

Soviet Intervention in Czechoslovakia, 1968 Jiri Valenta, 1991-11-01 In this new edition of his highly acclaimed work Jiri Valenta adds his assessment of Soviet military decisionmaking in the 1980s to his earlier analysis of decisionmaking and crisis management in the Soviet bureaucracy and Warsaw Pact Comparing the events of 1968 to the Kremlin's very different reaction to reforms now under way in Czechoslovakia and the rest of Eastern Europe Valenta shows that Soviet politics were never simple The USSR's foreign policy response to the Prague Spring he contends was the result of a complex political process conditioned by bureaucratic inertia coalition politics and East European pressures *Subversion* Lennart

Maschmeyer, 2024-03-04 In *Subversion* Lennart Maschmeyer presents an innovative new theory of an age old concept This pioneering study explains why subversion offers great strategic promise in theory but also faces a set of challenges that limit its strategic value in practice Contrasting the KGB's traditional subversion campaign after the Prague Spring with Russia's current and less successful efforts to use cyber tools to subvert Ukraine Maschmeyer's findings challenge current fears of cyberwar and effectively show that traditional subversion remains the more potent threat **What Causes War?**

Greg Cashman, 2013-07-29 Now in a thoroughly revised and updated edition this classic text presents a comprehensive survey of the many alternative theories that attempt to explain the causes of interstate war For each theory Greg Cashman examines the arguments and counterarguments considers the empirical evidence and counterevidence generated by social science research looks at historical applications of the theory and discusses the theory's implications for restraining international violence Among the questions he explores are Are humans aggressive by nature Do individual differences among leaders matter How might poor decision making procedures lead to war Why do leaders engage in seemingly risky and irrational policies that end in war Why do states with internal conflicts seem to become entangled in wars with their neighbors What roles do nationalism and ethnicity play in international conflict What kinds of countries are most likely to become involved in war Why have certain pairs of countries been particularly war prone over the centuries Can strong states deter war Can we find any patterns in the way that war breaks out How do balances of power or changes in balances of power make war more likely Do social scientists currently have an answer to the question of what causes war Cashman examines theories of war at the individual substate nation state dyadic and international systems level of analysis Written in a clear and accessible style this interdisciplinary text will be essential reading for all students of international relations

Czechoslovakia's Lost Fight for Freedom, 1967-1969 Kenneth N. Skoug, 1999-08-30 This fascinating account by a Czech speaking American diplomat who lived in Czechoslovakia from 1967-1969 describes the collapse of a repressive Communist regime the subsequent unprecedented explosion of popular freedom the surprise Soviet occupation and the spirited passive

resistance of the population until the gradual strangulation of the Prague Spring Drawing on his own journal recent memoirs and documentary materials in the National Archives the author shows how American diplomats and senior U S officials analyzed and reacted to ongoing events He explains how reform leader Alexander Dubcek became wedged between enthusiastic popular support and the objections of ultra orthodox Soviet leaders Skoug s economic and commercial responsibilities gave him considerable access to Czechoslovak officials even in the Novotny period and he was an eyewitness to the invasion and many other crucial events of the period including the great patriotic demonstration of March 1969 which the Soviet Union exploited to force Dubcek s resignation Despite overt Soviet pressure neither Prague nor Washington anticipated intervention The Johnson Administration courting Moscow for help on Vietnam displayed calculated indifference to the dispute and reacted tepidly to developments Left alone the Czechoslovak population met the invader with militant if passive resistance but the Dubcek leadership capitulated to Soviet demands and acquiesced in an occupation that gradually betrayed all of the gains achieved Subsequent reluctance by Washington to criticize Moscow helped the Soviet Union cut its diplomatic losses On the other hand the Czechoslovak crisis may have helped to persuade Gorbachev to allow Eastern Europe to resolve its own affairs in 1989
