Understanding Soviet Naval Developments United States. Office of Naval Intelligence,1978 **Soviet Naval Developments: Capability and Context** Dalhousie University. Centre for Foreign Policy Studies,1973 Based on the 1972 Seminar on Soviet Naval Developments **Soviet Naval Developments** ,1981 Continental Powers and Naval Development Brian C. Chao,2025-10-16 This book examines how continental great powers have attempted to develop and wield strong navies since 1801 Continental Powers and Naval Development argues that a continental great power s ability to build and effectively use a strong navy is greatly affected by two factors a naval force design capable of executing national strategy strategy coherence and the deployment of that navy to places or for purposes that minimize the dominant naval power s threat perception threat diffusion Each factor is deceptively difficult for a continental great power to achieve but through an analysis of four historical case studies this book shows how both factors are vital not just for successful naval development but for keeping the peace among great powers Finally it highlights how states commonly thought of as unnatural naval powers can nonetheless achieve their political objectives at sea This book will be of much interest to students of naval history maritime strategy and International Relations **A History of Russian and Soviet Naval Developments** Richard W. Daniel,Naval Postgraduate School (U.S.),1988 This thesis seeks to provide an historical understanding of Russian and Soviet naval developments This historical basis is provided to complement technological analysis of Soviet naval concepts and systems The origins of Soviet naval traditions are examined beginning with the establishment of the ancient Russian state of Kiev the birth of the Tsarist Navy under Peter I the origins of the Communist State and Navy and concluding with the Soviet naval developments during the Second World War In examining these developments significant naval victories Sweden 1721 and Tchesme 1770 and defeats Crimean 1853 and Tsushima 1905 are noted along with non combat administrative reforms The employment of the Russian Navy in World War One and the Soviet Navy in World War Two are also examined The conclusion is drawn that the primary mission of the Soviet Navy is to support the Soviet Army in a continental theater This conclusion is based on the historical failure of the Russian and Soviet Navies in conducting blue water operations inferring a notion of perceived futility in attempting these operations the historical success in conducting coastal operations in support of the army inferring the utility of these types of operations and the historical land combat bias of the Russian and Soviet Militaries Keywords Russian navy Naval command Control communications Naval history
