Sowing Seeds Of Change Informing Public Policy In The Economic Research Service Of Usda:

Sowing Seeds Of Change National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Panel to Study the Research Program of the Economic Research Service, 1999-07-04 Every day economic decisions are made in the public and private sectors based on limited information and analysis. The analysis and information needed for successful public policy has changed rapidly with the growth of the global economy and so have the means for acquiring them. In the public sector decision makers rely on information gathered within government agencies as well as the work of academics and private firms. *Sowing the Seeds* provides a case study of the need for analysis and information in support of public policy. It combines lessons learned from one of the first government agencies devoted primarily to this function with modern economic theory of organizations. The panel provides analysis and insight on How and why public economic policy evolves with technological advances. The nature of information and analysis in support of economic policy produced in a government agency. The characteristics of successful information and analysis programs. Evaluating the work of a government agency providing information and analysis. Effective administration and organization of research and information programs in a government agency. Findings and recommendations in this volume will be of interest to managers and executives of research and consulting organizations in the public and private sectors as well as to economists and policy makers. [Publicly Funded Agricultural Research and the Changing Structure of U.S. Agriculture](#) National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Committee to Review the Role of Publicly Funded Agricultural Research on the Structure of U.S. Agriculture, 2002-04-18 The U.S. Department of Agriculture USDA requested that the Board on Agriculture and Natural Resources of the National Research Council NRC convene a panel of experts to examine whether publicly funded agricultural research has influenced the structure of U.S. agriculture and if so how. The Committee to Review the Role of Publicly Funded Agricultural Research on the Structure of U.S. Agriculture was asked to assess the role of public sector agricultural research on changes in the size and numbers of farms with particular emphasis on the evolution of very large scale operations.

Service as Mandate Alan I Marcus, 2015-12-31 Completing a comprehensive history of America's land grant universities begun in Science as Service the thirteen original essays in Service as Mandate examine how these great institutions both changed and were changed by the late twentieth and early twenty first centuries. **Trump and the Bureaucrats** Stuart Shapiro, 2023-01-25 This volume discusses the long term impacts of the Trump presidency on the federal bureaucracy. Drawing on the longstanding academic literature on neutral competence and interviews with the bureaucrats themselves this book adds insight to the academic question of the role of bureaucrats in a democratic system after a four year period in which their role has been questioned and threatened as never before. Focusing on the elite agencies of the Office of Management and Budget the Congressional Budget Office the Government Accountability Office as well as the Economic

Research Service at the Department of Agriculture the chapters evaluate individual experiences of members of each agency during the Trump presidency through the lens of the growing tension between politics and administration Enlightening the role that bureaucrats play in American democracy in an era when polarization is on the rise and disputes over the role of the civil service are growing this volume will be of interest to scholars and students in public policy political science and public administration as well as policymakers and members of the US federal government workforce [The Technological Fix](#) Lisa Rosner,2013-02-01 The term technological fix should mean a fix provided by technology a solution for all of our problems from medicine and food production to the environment and business Instead technological fix has come to mean a cheap quick fix using inappropriate technology that usually creates more problems than it solves This collection sets out the distinction between a technological fix and a true technological solution Bringing together scholars from a variety of disciplines the essays trace the technological fix as it has appeared throughout the twentieth century Addressing such fixes as artificial hearts industrial agriculture and climate engineering these essays examine our need to turn to technology for solutions to all of our problems [The Failure of National Rural Policy](#) William Paul Browne,2001 Modern farm policy emerged in the United States in 1862 leading to an industrialized agriculture that made the farm sector collectively more successful even as many individual farmers failed Ever since a healthy farm economy has been seen as the key to flourishing rural communities and the problems of rural nonfarmers former farmers nonfarm residents and unfarmed regions were ignored by policymakers In The Failure of National Rural Policy William P Browne blends history politics and economics to show that federal government emphasis on farm productivity has failed to meet broader rural needs and actually has increased rural poverty He explains how strong public institutions which developed agrarianism led to narrowed concepts of the public interest Reviewing past efforts to expand farm policy benefits to other rural residents Browne documents the fragmentation of farm policy within the agricultural establishment as farm services grew the evolution of political turf protection and the resultant difficulties of rural advocacy Arguing for an integrated theory of governing institutions and related political interests he maintains that nonfarm rural society can make a realistic claim for public policy assistance Written informally each chapter is followed by comments on the implications of its topics and summaries of key points The book will serve as a stimulating text for students of public policy national affairs rural sociology and community development as well as anyone concerned with the future of agrarian America [International Encyclopedia of the Social & Behavioral Sciences](#) Neil J.
