Housley, 2004-11-14 This collection of essays by European and American scholars addresses the changing nature and appeal of crusading during the period which extended from the battle of Nicopolis in 1396 to the battle of Mohacs in 1526 Contributors focus on two key aspects of the subject One is developments in the crusading message and the language in which it was framed These were brought about partly by the appearance of new enemies above all the Ottoman Turks and partly by shifting religious values and innovative currents of thought within Catholic Europe The other aspect is the wide range of responses which the papacy's repeated calls to holy war encountered in a Christian community which was increasingly heterogeneous in character This collection represents a substantial contribution to the study of the Later Crusades and of Renaissance Europe **The Spain of the Catholic Monarchs 1474-1520** John Edwards, 2001-03-26 This book provides a comprehensive and compelling history of the reign of Ferdinand and Isabella from the origins and upbringing of the two rulers through the events and circumstances of their rule to the consequences for the following generations **A History of Western Public Law** Bruno Aguilera-Barchet, 2014-12-31 The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political religious and economic events Michelin Green Guide Spain Michelin Travel & Lifestyle, 2012-01-01 This eBook version of the Green Guide Spain reveals a land renowned for its culture heritage and geographical diversity Spain's beaches and mountains mix effortlessly with dynamic cities packed with world class museums superb dining and fantastic shopping Visit a Rioja winery admire Barcelona's Modernist architecture or island hop across the Canaries New regional introductions

Michelin's celebrated star rating system, walking and driving tours, detailed maps and suggested restaurants and hotels for a variety of budgets allow travelers to plan their trip carefully or to be spontaneous in their journey. Isabella Kirstin Downey, 2014-10-28 An engrossing and revolutionary biography of Isabella of Castile, the controversial Queen of Spain who sponsored Christopher Columbus's journey to the New World, established the Spanish Inquisition and became one of the most influential female rulers in history. Born at a time when Christianity was dying out and the Ottoman Empire was aggressively expanding, Isabella was inspired in her youth by tales of Joan of Arc, a devout young woman who unified her people and led them to victory against foreign invaders. In 1474, when most women were almost powerless, twenty-three-year-old Isabella defied a hostile brother and a mercurial husband to seize control of Castile and León. Her subsequent feats were legendary. She ended a twenty-four generation struggle between Muslims and Christians, forcing North African invaders back over the Mediterranean Sea. She laid the foundation for a unified Spain. She sponsored Columbus's trip to the Indies and negotiated Spanish control over much of the New World with the help of Rodrigo Borgia, the infamous Pope Alexander VI. She also annihilated all who stood against her by establishing a bloody religious Inquisition that would darken Spain's reputation for centuries. Whether saintly or satanic, no female leader has done more to shape our modern world in which millions of people in two hemispheres speak Spanish and practice Catholicism. Yet history has all but forgotten Isabella's influence due to hundreds of years of misreporting that often attributed her accomplishments to Ferdinand, the bold and philandering husband she adored. Using new scholarship, Downey's luminous biography tells the story of this brilliant, fervent, forgotten woman, the faith that propelled her through life and the land of ancient conflicts and intrigue she brought under her command.

**Legenda** Janina Ramirez, 2025-11-06 From the bestselling author of *FEMINA*, a brilliant reappraisal of the medieval women whose lives have been exploited over centuries for political nation building ends. In *LEGENDA*, bestselling historian Professor Janina Ramirez peels back the layers of time to reveal how the lives of women have been co-opted by those intent on crafting national identities. Their names are well known and summaries of their achievements have been recited in classrooms for decades, but medieval women like Joan of Arc, Lady Godiva, and Isabella of Castile have been misrepresented, their stories twisted and weaponised. Meanwhile, ground-breaking 18th and 19th-century women who blazed a trail through revolutionary Europe have been forgotten, their legacies too easily dismissed or ignored. Questioning established narratives and searching for the real women behind the legends, Ramirez interrogates what defines a nation and who gets to build it, shining a light on how history is so often hijacked to serve the ideological and political interests of the present.

**PRAISE FOR JANINA RAMIREZ** Ramirez blasts a powerful spotlight into the so-called Dark Ages and reveals a vibrant world awash with colour and character. **DAN SNOW**, host of *History Hit*, skillfully brings out from the shadows the lives of women who ruled, fought, traded, created and inspired. **CAT JARMAN**, author of *River Kings*, like the interlaced stonework on an Anglo-Saxon cross, Janina Ramirez's themes

are interwoven with a consummate skill TOM HOLLAND author of *Dominion* and host of *The Rest is History* Ramirez makes us look into the mists of history in new exciting and provocative ways PETER FRANKOPAN author of *The Silk Roads*
