Spanish Brabanter A Seventeenth Century Dutch Social Satire In Five Acts:

The Spanish Brabanter Gerbrand Adriaenszoon Bredero, H. David Brumble, 1982 *Dutch Literature in the Age of Rembrandt* Maria A. Schenkeveld, 1991-01-01 Inleidend overzicht met name aan de hand van thema's van de Nederlandse literatuurgeschiedenis van de 17e eeuw

Public Opinion and Changing Identities in the Early Modern Netherlands Judith Pollmann, Andrew Paul Spicer, 2007 This lively collection of essays examines the link between public opinion and the development of changing Netherlandish identities in the sixteenth and seventeenth centuries

Drama of a Nation Walter Cohen, 2019-06-30 During the sixteenth and seventeenth centuries in the midst of an international florescence of drama the English and Spanish theaters displayed striking and unique similarities Although these two national theaters developed in relative isolation from each other in both countries the plays synthesized native popular traditions and neoclassical learned conventions a synthesis found neither in the more elite Italian and French drama of the time nor in any other European drama before or since In *Drama of a Nation* Walter Cohen illuminates the causes of this significant parallel development Working from a Marxist perspective Cohen seeks to establish correlations among individual plays dramatic genres theatrical institutions cultural milieus and political and economic systems He argues that the drama owed its distinctiveness to the public theaters especially of London and Madrid which opened in the 1570s and closed under government order seventy years later Both drama and theater in turn depended on a relative cultural homogeneity perpetuated by a state that primarily served the aristocracy Absolutism he maintains first fostered and then undermined the public theater

The 'Small Landscape' Prints in Early Modern Netherlands Alexandra Onuf, 2017-01-02 In 1559 and 1561 the Antwerp print publisher Hieronymus Cock issued an unprecedented series of landscape prints known today simply as the Small Landscapes The forty four prints included in the series offer views of the local countryside surrounding Antwerp in simple unembellished compositions At a time when vast panoramic and allegorical landscapes dominated the art market the Small Landscapes represent a striking innovation This book offers the first comprehensive analysis of the significance of the Small Landscapes in early modern print culture It charts a diachronic history of the series over the century it was in active circulation from 1559 to the middle of the seventeenth century Adopting the lifespan of the prints as the framework of the study Alexandra Onuf analyzes the successive states of the plates and the changes to the series as a whole in order to reveal the shifting artistic and contextual valences of the images at their different moments and places of publication This unique case study allows for a new perspective on the trajectory of print publishing over the course of the late sixteenth and early seventeenth centuries across multiple publishing houses highlighting the seminal importance of print publishers in the creation and dissemination of visual imagery and cultural ideas Looking at other visual materials and contemporary sources including texts as diverse as humanist poetry and plays agricultural manuals polemical broadsheets and peasant songs Onuf situates the Small Landscapes within the larger cultural discourse on rural land and the meaning of the local in the turbulent early

modern Netherlands The study focuses new attention on the active and reciprocal intersections between printed pictures and broader cultural economic and political phenomena **The Archaeology of New Netherland** Craig Lukezic, John P.

Museum, 2001 The caress of fabrics the sheen of metal the brittle luminosity of glass Dutch genre painters of the Golden Age
were so skilled at mimicking the appearance of things that their largely imaginary domestic scenes are utterly convincing
pictures of life as it was once lived The contemporary viewer enters this world of make believe as eagerly as Dorothy stepped
into the land of Oz with a complete trust in the fitness and accuracy of the illusion Now four eminent art historians reveal the
trick behind this illusion and give us insight into the social reality that animates the deception We learn why domestic
interiors were a favorite subject for seventeenth century Dutch artists and why buyers snatched up these paintings before
their varnish dried And we come to understand why these images of home and family the earliest in the history of art still
speak to us three hundred years later in a voice as fresh and powerful as when they first appeared This is the story of an art
that echoed and shaped the ideals of an emerging nation a sensitive portrait of the painted fictions that laid the ground for
our modern concept of home as the compass of our true selves Book jacket **Yearbook of European Studies**, 1991
