**Spatial Organization** Ronald Abler, John S. Adams, Peter Gould, 1971      **On the Move** Tim Cresswell, 2006 *On the Move* presents a rich history of one of the key concepts of modern life mobility. Increasing mobility has been a constant throughout the modern era evident in mass car ownership, plane travel and the rise of the Internet. Typically people have equated increasing mobility with increasing freedom. However, as Cresswell shows, while mobility has certainly increased in modern times, attempts to control and restrict mobility are just as characteristic of modernity. Through a series of fascinating historical episodes, Cresswell shows how mobility and its regulation have been central to the experience of modernity.

**Spatial Organization** Ronald Abler, John S. Adams, Peter Gould, 1971      *International Handbook of Globalization and World Cities* Ben Derudder, 2012-02-01 This Handbook offers an unrivalled overview of current research into how globalization is affecting the external relations and internal structures of major cities in the world. By treating cities at a global scale, it focuses on the stretching of urban functions beyond specific place locations without losing sight of the multiple divisions in contemporary world cities. The book firmly bases city networks in their historical context, critically discusses contemporary concepts and key empirical measures and analyses major issues relating to world city infrastructures, economies, governance and divisions. The variety of urban outcomes in contemporary globalization is explored through detailed case studies. Edited by leading scholars of the Globalization and World Cities GaWC Research Network and written by over 60 experts in the field, the Handbook is a unique resource for students, researchers and academics in urban and globalization studies as well as for city professionals in planning and policy.
