## **The Exploding City:**

**The Explosion Chronicles** Yan Lianke, 2016-10-04 A rip roaring Swiftian satire from a contemporary Chinese master follows a rural community's transformation from small village to megalopolis. The Economist. With the Yi River on one side and the Balou Mountains on the other, the village of Explosion was founded more than a millennium ago by refugees fleeing a seismic volcanic eruption. But in the post Mao era, the name takes on a new significance as the community grows explosively from a small village to a vast metropolis. Behind this rapid expansion are members of the community's three major families including the four Kong brothers, Zhu Ying, the daughter of the former village chief, and Cheng Qing, who starts out as a secretary and goes on to become a powerful political and business figure. Linked together by a complex web of loyalty, betrayal, desire, and ambition, these figures are the driving force behind their hometown's transformation into an urban superpower. Brimming with absurdity, intelligence, and wit, *The Explosion Chronicles* considers the high stakes of passion and power, the consequences of corruption and greed, the polarizing dynamics of love and hate between families, as well as humankind's resourcefulness through the vicissitudes of life. Yan's burlesque of a nation driven insane by money is equally a satire of some of the excesses of the Chinese Revolution. *The Wall Street Journal*     *Achieving Sustainable Urban Form* Elizabeth Burton, Mike Jenks, Katie Williams, 2013-07-04 *Achieving Sustainable Urban Form* represents a major advance in the sustainable development debate. It presents research which defines elements of sustainable urban form, density, size, configuration, detailed design, and quality from macro to micro scale. Case studies from Europe, the USA, and Australia are used to illustrate good practice within the fields of planning, urban design, and architecture.     *The Exploding City* W. D. C. Wright, D. H. Stewart, 1952     **Annual Report of the American Institute, of the City of New York** American Institute of the City of New York, 1871     **The Story of the Volunteer Fire Department of the City of New York** George William Sheldon, 1882     *The Scale of Urban Change Worldwide 1950-2000 and Its Underpinnings* David Satterthwaite, 2005

**The Reporter** Howard Ellis, Rowland Cox, 1883 Includes decisions in the Irish courts 1876, June 1886, and Indian appeals 1876, 1877.     **The Miller**, 1881     *The Humanity of Cities* John Gulick, 1989 I recommend this book highly to social scientists who are looking for a review or refresher course in urbanology, advanced undergraduate students, and introductory graduate students. As our American college student bodies become more culturally diverse, *The Humanity of Cities* provides a welcome respite from the usual culture-bound texts that give limited attention for effect only of the stereotypical Third World Contemporary Sociology. Gulick's style is to develop each topic by presenting appropriate case studies. He manages to include an enormous range of studies and he wisely reaches out beyond anthropology to the many fields that concern themselves with urban life. This book is consequently an excellent compilation of the recent history of theoretical and empirical research on cities. The 28 page bibliography is itself a tour de force. American Anthropologist. Combining major urban theories with empirical studies from around the world, the author offers poignant glimpses into urban life, including the streets of San

Francisco as seen through the eyes of a proud garbage collector the marketplace of Ibadan as seen by a petty food trader the curiously empty streets of Fun city a California retirement community and Cairo s teeming cemetery the City of the Dead filling with the living The problems of urban life are shown to be more a result of worldwide forces rather than the intrinsic nature of cities This major new and timely contribution to the field is a most useful way to introduce urban scholars planners and students in a variety of disciplines to The Humanity of Cities A complete teachers manual makes this the perfect text
