The Ever Open Door Alan Gregory, 1998 *The Path to Professionalism* Philip Geoffrey Bentley, David Dunstan, 2006

The Body Divided Dr Sarah Ferber, Ms Sally Wilde, 2013-07-28 Bodies and body parts of the dead have long been considered valuable material for use in medical science Over time and in different places they have been dissected autopsied investigated harvested for research and therapeutic purposes collected to turn into museum and other specimens and then displayed disposed of and exchanged This book examines the history of such activities from the early nineteenth century through to the present as they took place in hospitals universities workhouses asylums and museums in England Australia and elsewhere Through a series of case studies the volume reveals the changing scientific economic and emotional value of corpses and their contested place in medical science

More than Bombs and Bandages Kirsty Harris, 2024-06-05 More than Bombs and Bandages exposes the false assumption that military nurses only nursed Based on author Kirsty Harris CEW Bean Prize winning PhD thesis this is a book that is far removed from the devotion to duty stereotyping offering an intriguing and sometimes gut wrenching insight into the Australian Army Nursing Service AANS during World War I More than Bombs and Bandages provides rich pickings for all those interested in nursing history women in the Australian military the application of medical treatments and World War I What I enjoyed most about is Dr Kirsty Harris s ability to reflect those nurses voices in a way that was so real one could be there the settings were so well understood from her research and the language kind of made a time warp in the reading Very satisfying As you know I have that Peter Rees book but I could not get into it after reading the historical one It was like comparing a great documentary to Facebook trivia Rev d Dr Barbara Oudt

Double Helix, Double Joy Carolyn Rasmussen, Alister Danks, 2012-11-29 Professor David Danks explained in a public lecture revealingly titled Double Helix Double Joy that Even from its infancy it was apparent that the double helix was going to change not only science but also the community s image of science Double Joy conveyed his sense that the developments cascading from Watson and Crick s initial DNA discovery would yield immense benefits for people generally and also for his own research ambitions A double joy made concrete in the foundation of the Murdoch Institute for Research into Birth Defects where he could fully implement his vision of unfettered basic scientific research wedded to clinical practice and services to public health Born into the long established Melbourne family of hardware merchants Danks chose a career path more aligned to that family s association with hospitals and health Inspired to know why a disease had occurred and how it could be anticipated and prevented Danks trained with pioneers of human genetics in London and Baltimore from 1959 At that time human genetics was scarcely known in Australia Following his discovery of the cause of Menkes disease in 1972 and breakthroughs in PKU testing he applied his entrepreneurial flair to the development of a brilliant multi disciplinary research team focussed on the identification of genetic diseases affecting newborns and their treatment in the clinic Dame Elisabeth Murdoch embraced his vision and helped launch the Murdoch Institute in 1986 based at the Royal Children s
