

# SOCIAL CONTROL THEORY

Social Control Theory suggests that people are naturally inclined to engage in criminal behavior, and institutions like the family, schools, and the criminal justice system, work together to control individuals and prevent them from engaging in deviant behavior.

## SOCIAL BONDS

Individuals who have strong bonds and relationships with others are less likely to engage in deviant or criminal behavior. These bonds may be with family members, friends, school, or other social institutions. Social bonds create a sense of belonging and attachment, which provides individuals with a stake in conforming to societal norms and values.

## CONTROL

1. **Formal:** laws, policies, and the criminal justice system. Enforced by the government, and violations result in formal sanctions, such as fines or imprisonment.
2. **Informal:** social norms, values, customs, traditions, and peer pressure. Enforced by informal means, such as social disapproval, ridicule, or exclusion from groups.
