The Paradoxes of the Highest Science Eliphas Levi,1996-04 *Paradoxes of the Highest Science* Eliphas Lévy,2023-01-31 Many paths lead to the mountain top and many and diverse are the rifts in the Veil through which glimpses may be obtained of the secret things of the Universe The Abb Louis Constant better known by his nom de plume of LIPHAS L VI was doubtless a seer but though his studies were by no means confined to this he saw only through the medium of the kabala the perfect sense of which is now a days hidden from all mere kabalists and his visions were consequently always imperfect and often much distorted and confused Moreover he was for a considerable portion of his career a Roman Catholic priest and as such had to keep terms to a certain extent with his church and even later when he was unfrocked he hesitated to shock the prejudices of the public and never succeeded in even wholly freeing himself from the bias of his early clerical training Consequently he not only erred at times in good faith not only constantly wrote ambiguously to avoid a direct collision with his ecclesiastical chiefs or current creeds but he not unfrequently put forward Dogmas which taken in their obvious straightforward meanings he certainly did not believe nay I may say certainly knew to be false *Paradoxes of the Highest Science* Eliphas Levi,2018-10-16 MANY paths lead to the mountain top and many and diverse are the rifts in the Veil through which glimpses may be obtained of the secret things of the Universe The Abb Louis Constant better known by his nom de plume of LIPHAS L VI was doubtless a seer but though his studies were by no means confined to this he saw only through the medium of the kabala the perfect sense of which is now a days hidden from all mere kabalists and his visions were consequently always imperfect and often much distorted and confused Moreover he was for a considerable portion of his career a Roman Catholic priest and as such had to keep terms to a certain extent with his church and even later when he was unfrocked he hesitated to shock the prejudices of the public and never succeeded in even wholly freeing himself from the bias of his early clerical training Consequently he not only erred at times in good faith not only constantly wrote ambiguously to avoid a direct collision with his ecclesiastical chiefs or current creeds but he not unfrequently put forward Dogmas which taken in their obvious straightforward meanings he certainly did not believe nay I may say certainly knew to be false The Paradoxes of the Highest Science Eliphas Levi,2011-05 MANY paths lead to the mountain top and many and diverse are the rifts in the Veil through which glimpses may be obtained of the secret things of the Universe The Abbe Louis Constant better known by his nom de plume of ELIPHAS LEVI was doubtless a seer but though his studies were by no means confined to this he saw only through the medium of the kabala the perfect sense of which is now a days hidden from all mere kabalists and his visions were consequently always imperfect and often much distorted and confused Moreover he was for a considerable portion of his career a Roman Catholic priest and as such had to keep terms to a certain extent with his church and even later when he was unfrocked he hesitated to shock the prejudices of the public and never succeeded in even wholly freeing himself from the bias of his early clerical training Consequently he not only erred at times in good faith not only constantly

wrote ambiguously to avoid a direct collision with his ecclesiastical chiefs or current creeds but he not unfrequently put forward Dogmas which taken in their obvious straightforward meanings he certainly did not believe nay I may say certainly knew to be false It is quite true that in many of these latter cases an undercurrent of irony may be discerned by those who know the truth and that in all the enlightened can sufficiently read between the lines to avoid misconceptions But these defects the ineradicable bias of his early training the very narrow standpoint from which he regarded occultism and the limitations to free expression imposed on him by his position and temperament seriously detract from the value of all Eliphas Levi's writings

through the Glass Darkly is a book about paradoxes and how they were actually created by God to bring unique enlightenment but also to confound the so called earthly wisdom Paradoxes also keep believers humble by showing them that God's ways are not always man's ways For this is what the high and lofty One says he who lives forever whose name is holy I live in a high and holy place but also with him who is contrite and lowly in spirit to revive the spirit of the lowly and to revive the heart of the contrite Isaiah 57:15 This book introduces the reader to the ancient idea of The Divine Paradox written by Hermes Trismegistus thrice great in The Divine Pylander An additional book Corpus Hermeticum was translated by Marsilio Ficino during the early Renaissance and helps frame the philosophical paradox of nature versus faith This book along with other fragments written by Hermes Trismegistus was translated in the early 1400s and caused a rebirth of its teachings during the Renaissance Modern secret societies and the occult are using much of the same knowledge to deceive people in the world today Evidence shows Albertus Magnus Roger Bacon and the Knights Templar possessed ancient knowledge and from it gave rise to secret organizations and societies operating today including the Illuminati Freemasons and modern occultists
