The Peoples Doctor George Hatem Chinas Revolution:

The People's Doctor Edgar A. Porter, 1997-01-01 The young George Hatem journeyed to Shanghai in 1933 to practice medicine and see the sights. The deplorable health and social conditions he found there caused his sympathies to veer quickly to the revolutionary efforts of the Chinese Communist party and before long he joined the underground Party members in conspiratorial meetings and activities. In 1936 he left Shanghai on a secret Province after completing the Long March. For the next 14 years Hatem served the Communist troops as physician and adviser. He took the name Ma Haide and became the first foreigner admitted into China's Communist Party. After the Communist victory in 1949 he became the first foreigner granted citizenship in the People's Republic. Over the next 40 years his reputation grew as one of the leading public health physicians in the world. Until his death in 1988 he showed absolute allegiance to the Party. Few foreigners have been accepted into Chinese society as readily as he and certainly none have had such intimate access to 20th century China's most powerful figures.

China, Hong Kong, and the Long 1970s: Global Perspectives Priscilla Roberts, Odd Arne Westad, 2017-08-17 This book explores the forces that impelled China the world's largest socialist state to make massive changes in its domestic and international stance during the long 1970s. Fourteen distinguished scholars investigate the special perhaps crucial part that the territory of Hong Kong played in encouraging and midwifing China's relationship with the non-Communist world. The Long 1970s were the years when China moved dramatically and decisively toward much closer relations with the non-Communist world. In the late 1970s China also embarked on major economic reforms designed to win it great power status by the early twenty-first century. The volume addresses the long term implications of China's choices for the outcome of the Cold War and in steering the global international outlook toward free market capitalism. Decisions made in the 1970s are key to understanding the nature and policies of the Chinese state today and the worldview of current Chinese leaders.

How the "Red Star" Rose Ishikawa Yoshihiro, 2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Start over China all alone is in many instances misunderstood even by scholars. Mao Zedong's biography has been the subject of an international mountain of commentary in China and elsewhere. Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow's 1905-1972 account in *Red Star over China* for the route Mao traveled from early childhood through his youth. *How the Red Star Rose* introduces the image of Mao and the biographical information made known to the world through the publication of *Red Star* and with its publication the circumstances which they fundamentally undermined. Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being. He desires to help readers to reconsider the historicity of the generation of not only Mao's image but of that of historical materials. With a title that evokes Gao Hua's seminal study of Mao Zedong's rise in the Chinese Communist Party, Ishikawa Yoshihiro asks two critical questions: What did the world know of Mao before the publication of Edgar Snow's *Red Star over China*?

China How did Red Star change that understanding With the meticulous research careful documentation and fair minded judgment that characterizes all of Ishikawa s work he shows how little even Moscow and the Communist International knew about Mao before 1936 This study is full of unexpected insights into the origins of early visual images of Mao the background to Snow s historic trip to northern Shaanxi and the evolution of the classic study that he left In a world where balanced judgment of the rise of Mao is increasingly difficult to find Ishikawa s scholarship stands out as a rare model of judicious balance Joseph W Esherick Emeritus Professor Hwei chih and Julia Hsiu Chair in Chinese Studies University of California San Diego This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter Ishikawa captures a moment of a past gearing up in anticipation of a future that never came This book is a must read for all with an interest in Mao journalism and the history of books Wen hsin Yeh Richard H and Laurie C Morrison Chair Professor in History University of California Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow s famous biography in 1936 and then how Snow s images of Mao were translated and transmuted into Chinese Russian and Japanese Joshua Fogel s careful translation brings this impeccable example of Japanese sinology to the English reading public Timothy Cheek Professor and Louis Cha Chair in Chinese Research University of British Columbia
