The Perceptive I A Personal Reader And Writer:

Selected Writings on Computing: A personal Perspective Edsger W. Dijkstra, 2012-12-06 Since the summer of 1973 when I became a Burroughs Research Fellow my life has been very different from what it had been before The daily routine changed instead of going to the University each day where I used to spend most of my time in the company of others I now went there only one day a week and was most of the time that is when not travelling alone in my study In my solitude mail and the written word in general became more and more important The circumstance that my employer and I had the Atlantic Ocean between us was a further incentive to keep a fairly complete record of what I was doing The public part of that output found its place in what became known as the EWD series which can be viewed as a form of scientific correspondence possible since the advent of the copier That same copier makes it hard to estimate its actual distribution I myself made about two dozen copies of my texts but their recipients were welcome to act as further nodes of the distribution tree The decision to publish a selection from the EWD series in book form was at first highly embarrassing but as the months went by I got used to the idea As soon as some guiding principles had been adopted preferably not published elsewhere as varied and as representative as possible etc Writing Gods Book of Life R. Crafton Gibbs, 2014-03-21 Further explanation and recording

of the author's Book of Life for God A Psychoanalytic Perspective on Reading Literature Merav Roth, 2019-08-14 What are the unconscious processes involved in reading literature How does literature influence our psychological development and existential challenges A Psychoanalytic Perspective on Reading Literature offers a unique glimpse into the unconscious psychic processes and development involved in reading The author listens to the free associations of various literary characters in numerous scenarios where the characters are themselves reading literature thus revealing the mysterious ways in which reading literature helps us and contributes to our development The book offers an introduction both to classic literature Poe Proust Sartre Sempr n Pessoa Agnon and more and to the major psychoanalytic concepts that can be used in reading it all described and widely explained before being used as tools for interpreting the literary illustrations The book thus offers a rich lexical psychoanalytic source alongside its main aim in analysing the reader's psychological mechanisms and development Psychoanalytic interpretation of those literary readers opens three main avenues to the reader's experience the transference relations toward the literary characters the literary work as means to transcend beyond the reader's self identity and existential boundaries and mobilization of internal dialectic tensions towards new integration and psychic equilibrium An Epilogue concludes by emphasising the transformational power embedded in reading literature The fascinating dialogue between literature and psychoanalysis illuminates hitherto concealed aspects of each discipline and contributes to new insights in both fields A Psychoanalytic Perspective on Reading Literature will be of great interest not only to psychoanalytic psychotherapists and literature scholars but also to a wider readership beyond these areas of study

The Writer, 1892 *The New Testament in Cross-Cultural Perspective* Richard L. Rohrbaugh, 2006-10-15 The Bible is

not a Western book and the world of the New Testament is not our world The New Testament world was preindustrial Mediterranean and populated mostly by nonliterate peasants who depended on hearing these writings read aloud Only a few of the literate elite were part of the Jesus movement and they knew nothing of either modernity or the Western culture we inhabit today This means that for all North Americans reading the New Testament is always an exercise in cross cultural communication Travelers diplomats and exchange students take great pains to bridge the cultural gaps that cloud mutual understanding But North American readers habitually suspend cross cultural awareness when encountering the Bible The result is that we unwittingly project our own cultural understandings onto the pages of the New Testament Rohrbach argues that to whatever degree we can bridge cultural gaps between ourselves and New Testament writers we learn to value their intentions rather than the meanings we create from their words Rohrbach's insightful interpretations of Gospel passages go a long way toward helping to span distances between the New Testament world and the present

A New Perspective on PTSD Robert Anthony, 2009-06-24 *A New Perspective on PTSD* is based on information I have accumulated throughout my recovery process using REBT to dismantle the flashbacks associated with PTSD I suffered child abuse in addition to over 20 other traumas before age 32 and would flash back under stress The therapeutic process I went through was not organized or structured The main fault with that type of approach is that my therapist and I would uncover issues that I found troublesome that could not be resolved within the hour I was given *A New Perspective on PTSD* is what I needed a structured process for resolving the internal conflicts created by and that create flashbacks Since I worked with many therapists I have developed the strategic process I have now been able to provide you This is the shortest most direct route for dealing with and overcoming PTSD from most any experience Combined with therapy with a PTSD specialist this book can bring your vivid reliving of the trauma down to simply an uncomfortable memory

Writing and Learning in Cross-national Perspective David Foster, 2017-10-03 Despite the increasingly global implications of conversations about writing and learning U S composition studies has devoted little attention to cross national perspectives on student writing and its roles in wider cultural contexts Caught up in our own concerns about how U S students make the transition as writers from secondary school to postsecondary education we often overlook the fact that students around the world are undergoing the same evolution How do the students in China England France Germany Kenya or South Africa the educational systems represented in this collection write their way into the communities of their chosen disciplines How for instance do students whose mother tongue is not the language of instruction cope with the demands of academic and discipline specific writing And in what ways is U S students development as academic writers similar to or different from that of students in other countries With this collection editors David Foster and David R Russell broaden the discussion about the role of writing in various educational systems and cultures Students development as academic writers raises issues of student authorship and agency as well as larger issues of educational access institutional power relations system goals and students roles in society

The contributors to this collection discuss selected writing purposes and forms characteristic of a specific national education system describe students agency as writers and identify contextual factors social economic linguistic cultural that shape institutional responses to writing development In discussions that bookend these studies of different educational structures the editors compare U S postsecondary writing practices and pedagogies with those in other national systems and suggest new perspectives for cross national study of learning writing issues important to all educational systems Given the worldwide increase in students entering higher education and the endless need for effective writing across disciplines and nations the insights offered here and the call for further studies are especially welcome and timely
