Light from the Other Side Jay Harold Ellens,2011-01-01 This volume presents the narrative of the author s personal spiritual journey which is marked by numerous constructive life changing paranormal experiences that can only be accounted for as special initiates of the divine spirit providing intimations and illuminations These events are set in the context of the rich literature available which reports similar events in the lives of many other persons under both normal and extreme circumstances The author a clinical psychologist and pastoral theologian interprets this broad panoply of psycho spiritual data in terms of psychological science and biblical perspectives He concludes that the divine spirit is pervasive throughout the universe and present in all the dynamics of life forms constantly endeavoring to communicate with humans Thus the paranormal may well be more normal than the normal human experience and the veil between time and eternity between the mundane and transcendent worlds and between life and the life to come is apparently more permeable in both directions than we suppose
