The Past Viva Mexico

Ian Christie, Julia Vassilieva

The Past Viva Mexico:

The Classical Mexican Cinema Charles Ramírez Berg, 2015-09-01 From the mid 1930s to the late 1950s Mexican cinema became the most successful Latin American cinema and the leading Spanish language film industry in the world. Many Cine de Oro Golden Age cinema films adhered to the dominant Hollywood model but a small yet formidable filmmaking faction rejected Hollywood's paradigm outright. Directors Fernando de Fuentes, Emilio Fernández, Luis Buñuel, Juan Bustillo Oro, Adolfo Best Maugard and Julio Bracho sought to create a unique national cinema that through the stories it told and the ways it told them was wholly Mexican. The Classical Mexican Cinema traces the emergence and evolution of this Mexican cinematic aesthetic, a distinctive film form designed to express lo mexicano. Charles Ramírez Berg begins by locating the classical style's pre-cinematic roots in the work of popular Mexican artist José Guadalupe Posada at the turn of the twentieth century. He also looks at the dawning of Mexican classicism in the poetics of Enrique Rosas' *El Automóvil Gris*, the crowning achievement of Mexico's silent filmmaking era, and the film that set the stage for the Golden Age films. Berg then analyzes mature examples of classical Mexican filmmaking by the predominant Golden Age auteurs of three successive decades. Drawing on neoformalism and neoauteurism within a cultural studies framework, he brilliantly reveals how the poetics of Classical Mexican Cinema deviated from the formal norms of the Golden Age to express a uniquely Mexican sensibility thematically, stylistically and ideologically.

Latina and Latino Voices in Literature Frances A. Day, 2003-05-30 This revised edition of an award-winning resource celebrates the lives and works of 35 Latina and Latino authors who write for today's young readers. Expanded to include 12 additional authors, updated information on the original 23 authors profiled, and 135 new titles, this comprehensive reference tool helps teachers, librarians, and parents stay current on one of the most dynamic areas of contemporary literature. Both established and emerging voices are profiled. Personal quotes and photographs introduce each biographical essay, presenting information gathered through interviews, personal communications, and research. A complete list of all books and works written by the author is included, along with publication information. Annotations are provided for most of the titles, along with information on major themes, awards won, and recommended age levels. Evaluating Books for Bias provides helpful guidelines for examining and selecting books from a pluralistic perspective. Appendices offer further helpful information about the field, including special awards honoring books by Latinas and Latinos, a calendar of holidays and special days celebrated by the Latino community, and listings of related resources and organizations. The author has also compiled ideas for classroom activities and ways for librarians to extend the literary experience. A title index and extensive topic index, including themes, curricular areas, and genres, help in planning story sessions and study units. This is a multipurpose resource for anyone who wants to help young readers connect with contemporary literature in a meaningful way.

The Eisenstein Universe Ian Christie,Julia Vassilieva,2021-04-22 Over the decades since he was first hailed by critics and filmmakers around the world Sergei Eisenstein has assumed many identities Originally cast as a prophet of revolution and the maestro of montage and later seen as both a victim of and apologist for Stalin s tyranny the scale and impact of Eisenstein s legacy has continued to grow If early research on Eisenstein focused on his directorial work from the legendary Battleship Potemkin and October to the still controversial Ivan the Terrible with time scholars have discovered many other aspects of his multifarious output In recent years multimedia exhibitions access to his vast archive of drawings and publication of his previously censored theoretical writings have cast Eisenstein in a new light Deeply engaged with some of the leading thinkers and artists of his own time Eisenstein remains a focus for many of their successors contested as well as revered Over half a century since his death in 1948 an ambitious treatise that he hoped would be his major legacy Method has finally been published Eisenstein s lifelong search for an underlying unity that would link archaic art with film s modernity individuals with their historic communities and humans as a species with the universe may have more appeal than ever today And among his many thwarted film projects those set in Mexico and what were once the Soviet Central Asian republics reveal complex and still intriguing realms of speculation In this ground breaking collection sixteen international scholars explore Eisenstein s prescient engagement with aesthetics anthropology and psychology his roots in diverse philosophical traditions and his gender politics What emerges has surprising relevance to contemporary media archaeology intermediality cognitive science eco criticism and queer studies as well as confirming Eisenstein s prestige within present day film and audiovisual media
