The Peaceable Kingdom A Primer In Christian Ethics:

The Peaceable Kingdom Stanley Hauerwas, 1991-08-31 Stanley Hauerwas presents an overall introduction to the themes and method that have distinguished his vision of Christian ethics. Emphasizing the significance of Jesus' life and teaching in shaping moral life, *The Peaceable Kingdom* stresses the narrative character of moral rationality and the necessity of a historic community and tradition for morality. Hauerwas systematically develops the importance of character and virtue as elements of decision making and spirituality and stresses nonviolence as critical for shaping our understanding of Christian ethics.

Christian Ethics Samuel Wells, 2010-05-10 CHRISTIAN ETHICS CHRISTIAN ETHICS AN INTRODUCTORY READER The selection of readings is excellent and I'd happily have my students devour them. Esther Reed, University of Exeter. Clear, sharply focused and precisely what is needed. This book is enlightening and potentially transformative. It presents Christian ethics as an exciting theological enterprise and offers a rich, deep and accessible way of practicing ethics. John Swinton, University of Aberdeen. Wells and Quash have put together a wonderfully comprehensive survey of Christian ethics while at the same time offering a distinctive and fresh perspective. With the array of primary texts and judicious and very well informed commentary that the two volumes represent, they have succeeded in constructing an extremely valuable resource for teachers and students of Christian ethics. Michael S. Northcott, University of Edinburgh. *Introducing Christian Ethics and Christian Ethics: An Introductory Reader* provides a comprehensive anthology of primary documents and materials relating to the emergence and study of key approaches to Christian ethics. The volume seeks to encompass the entire canon of Christian ethics, including first-hand accounts from major figures in the theological and ecclesial tradition. Readers are introduced to foundational figures such as Augustine, Aquinas, Luther, Calvin, and Barth, as well as contemporary voices including Rosemary Radford Ruether, James Cone, Jürgen Moltmann, Stanley Hauerwas, Oliver O'Donovan, Wendell Berry, and many others. Other notable figures not usually associated with the study of formal theoretical ethics, such as Gandhi and Martin Luther King Jr., are also represented. The significance of each extract is summarized through useful introductory sections placing the author or text in the context of broader developments in Christian ethical theory. Whether it is used independently or alongside the accompanying textbook *Introducing Christian Ethics*, this engaging and informative volume offers students a window into the fascinating evolution of Christian ethical thought. *Natural Law and Evangelical Political Thought* Jesse Covington, Bryan T. McGraw, Micah Watson, 2012-11-16 Natural law has long been a cornerstone of Christian political thought, providing moral norms that ground law in a shareable account of human goods and obligations. Despite this history, twentieth and twenty-first century evangelicals have proved quite reticent to embrace natural law, casting it as a relic of scholastic Roman Catholicism that underestimates the import of scripture and the division between Christians and non-Christians. As recent critics have noted, this reluctance has posed significant problems for the coherence and completeness of evangelical political reflections. Responding to evangelically minded thinkers, increasing calls for a re

engagement with natural law this volume explores the problems and prospects attending evangelical rapprochement with natural law Many of the chapters are optimistic about an evangelical re appropriation of natural law but note ways in which evangelical commitments might lend distinctive shape to this engagement

Generous Orthodoxies Paul Silas Peterson, 2020-04-30 After the birth of the Protestant ecumenical movement in the late nineteenth and early twentieth centuries and following the first great wave of universal Christian ecumenism in the 1960s and 1970s after the Second Vatican Council prominent theologians of nearly every ecclesial tradition charted new territory in the last decades of the twentieth century They crossed boundaries within their own ecclesial traditions and built bridges to other Christian churches churches that were once excluded from fellowship In the development of these new programs of ecumenical theology the theologians redefined their own confessional identities and in many cases crossed the liberal conservative divide within their own traditions This volume introduces this fascinating dynamic of theological mediation redefinition and generosity It shows how the ecumenical impulses which were directed outwardly to other traditions had reflexive effects inwardly Working in the realms of both historical and systematic theology the essays in this volume provide a critical analysis of the history of this general theological sentiment and offer an outlook for its future Contributors Brian D McLaren Foreword Paul Silas Peterson Introduction Part One Ecumenical reform theologies Andrew Meszaros Yves Congar The Birth of Catholic Ecumenism Matthew L Becker Edmund Schlink Ecumenical Theology Dorothea Sattler Otto Hermann Pesch Ecumenical Scholasticism Ronald T Michener George Lindbeck Ecumenical Unity through Ecclesial Particularity Nikolaos Asproulis John D Zizioulas A Pioneer of Ecumenical Dialogue and Christian Unity Part Two Overcoming liberal conservative polarities Ben Fulford Hans Frei Beyond Liberal and Conservative Friederike Nussel Wolfhart Pannenberg Liberal Orthodoxy Jay T Smith Stanley J Grenz The Evangelical Turn to Postliberal Theological Method Part Three Boundary crossings in philosophical systematic and ethical theology William E Myatt David Tracy Difference Unity and the Analogical Imagination Christophe Chalamet Robert Jenson God's Way and the Ways of the Church Victoria Lorrmar Stanley Hauerwas Witnessing Communities of Character Christine M Helmer Marilyn McCord Adams Philosophy Theology and Prayer Part Four Ecumenical theology today Wolfgang Vondray Pentecostalism and Christian Orthodoxy Revision Revival and Renewal Johanna Rahner Shifting Paradigms Future Ecumenical Challenges Michael Amaladoss Theology today in India Ecumenical or interreligious Bernd Oberdorfer Next Steps and Visions Lutheran Perspectives on Doctrinal Ecumenism

Natural Law Today Steven Brust, Christopher Wolfe, 2018-10-15 Natural Law Today The Present State of the Perennial Philosophy explains and defends various aspects of traditional natural law ethical theory which is rooted in a broad understanding of human nature Some of the issues touched upon include the relation of natural law to speculative reason and human ends teleology the relationship between natural law and natural theology the so called naturalistic fallacy deriving ought from is and the scope of natural knowledge of the precepts of the natural law as well as possible limits on it It also takes up certain historical and contemporary questions such

as the various stances of Protestant thinkers toward natural law the place of natural law in contemporary U S legal thought and the relationship between natural law and liberal political thought more generally It brings together a number of the leading exponents of a more traditional or classical form of natural law thought who claim to root their arguments within the broader philosophy of Thomas Aquinas more deeply than other major representatives of the natural law tradition today

Introduction to Christian Ethics Friedrich Schleiermacher,1989 Friedrich Schleiermacher is commonly regarded as the father of modern liberal theology and the dominant Protestant theologian between the time of John Calvin and that of Karl Barth Yet until now his comprehensive views on Christian ethics have never been published Introduction to Christian Ethics makes available for the first time Schleiermacher s most definitive and fully realized views on this topic Although he was a singularly prolific writer he left behind him a collection of books lectures sermons and letters that fill thirty volumes Schleiermacher never himself prepared a manuscript on Christian Ethics for publication Two previously published editions were based on lecture notes and student transcriptions Introduction to Christian Ethics is taken from the edition that utilizes the lectures of 1826 and 1827 the lectures that Schleiermacher himself felt most adequately reflected his views on the subject

Christianity and Crisis ,1984 **A Hybrid World** Sadiri Joy Tira,Juliet Lee Uytanlet,2020-05-15 Linking Blending Intermixing with Divine Purpose People are on the move As individuals and people groups are constantly migrating the unreached have become part of our communities This reality provides local Christ followers with the challenge and opportunity of navigating both the global diaspora and mixed ethnicities **A Hybrid World** is the product of a global consultation of church and mission leaders who discussed the implications of hybridity in the mission of God The contributors draw from their collective experiences and perspectives explore emerging concepts and initiatives and ground them in authoritative Scripture for application to the challenges that hybridity presents to global missions This book honestly wrestles with the challenges of ethnic hybridity and ultimately encourages the global church to celebrate the opportunities that our sovereign and loving God provides for the world s scattered people to be gathered to himself

Religion Morality & the Law Ronald Pennock,John W. Chapman,1988-06-01 In this thirtieth annual volume in the American Society for Political and Legal Philosophy s NOMOS series entitled Religion Morality and the Law twelve distinguished contributors consider a diverse selection of topics Included are essays on Natural Law and Creation Stories Divine Sanction and Legal Authority and Liberalism Neutralism and Rights These works ask whether morality itself can survive without the support of religion Political scientists philosophers and legal scholars will find this collection extremely valuable Each author is a leading force within their specialized fields

Natural and Divine Law Jean Porter,1999 **Christian Peacemaking & International Conflict** Duane K. Friesen,1986 Duane K Friesen suggests ways Christians can interpret and respond to international conflict He draws on both theological and social scientific literature to suggest that living in a more peaceful world is no

utopian dream but a realistic alternative **Creation, Eschaton, and Ethics** Douglas James Schuurman, 1991 This incisive study concerns the ways in which theological claims about creation's original and final perfection shape social ethics. Schuurman argues that prominent 20th century theologians Emil Brunner and Jürgen Moltmann wrongly envision the eschaton as radically discontinuous with creation and that this discontinuity coheres with serious inadequacies in their social ethics. His thesis is that continuity between creation and eschaton is necessary if Christian social ethics is to avoid dualistic understandings of love and justice, personal and impersonal values, church and world, revolutionism and conservatism. Schuurman establishes theological groundwork for a social ethic that calls for continuous transformation of social institutions and structures.

Theological Voices in Medical Ethics Allen Verhey, Stephen E. Lammers, 1993 This one of a kind collection contains portraits of some of the most significant theological voices in modern medical ethics including Paul Ramsey, James M. Gustafson, Richard McCormick, Bernard Haring and Germain Grisez about whom the authors and other contributors have written essays that point the way to a recovery of creative and faithful religious reflection on medical ethics.

Tijdschrift voor filosofie, 1985 **Ethics as Grammar** Brad J. Kallenberg, 2001 This text uses the work of ethicist Stanley Hauerwas as a foil for showing how Wittgenstein's method can become concrete in the Christian tradition. It shows that Wittgenstein's aim to cultivate concrete skill in people was akin to Aristotle's emphasis on the relationship of reason and ethics.

Beyond Universal Reason Emmanuel Katongole, 2000 The author of this book develops a theoretical framework and demonstrates that Hauerwas's claim about the relation between religion and ethics only makes sense within the wider framework of his attempt to set aside Kantian moral tradition.

Religious Education Encounters Liberation Theology Daniel S. Schipani, 1988 **Spheres of Love** Stephen Garrard Post, 1994 Post Case Western Reserve U integrates insights from ethics, theology, history and sociology in this discussion of love within and outside the family. He argues for a new nuclear familialism consistent with justice for women, for a renewal of parental love and for a moral balance between love and
