The Party and Agricultural Crisis Management in the USSR Cynthia Sue Kaplan, 1987 **The Party and Agricultural Crisis Management in the U. S. S. R.** Cynthia S. Kaplan, Agriculture and the State in Soviet and Post-Soviet Russia Stephen Wegren, 2010-11-23 Winner 1999 Edward A Hewett Book Prize from AAASS A comprehensive original and innovative analysis of the social economic and political factors affecting contemporary Russian reform the book is organized around the central question of the role of the state and its effect on the course of Russian agrarian reform In the wake of the collapse of the USSR contemporary conventional wisdom holds the the Russian state is weak Stephen Wegren feels that the traditional approach to the weak strong state suffers from measurement and circular logic problems believing that the Russian state thought weaker than in its Soviet past is still relatively stronger than other actors The state s strength allows it to intervene in the rural sector in ways that other power contender cannot Specifically as a measure of state intervention Wegren analyzes how the state has influenced urban rural relations rural rural relations and the nonstate private agricultural sector Several dilemmas arose that have complicated successful agrarian reform as a result of the nature of state interventions how reform policies were defined and the incentives that arose from state sponsored policies During contemporary Russian agrarian reform urban rural differences have widened marked by a deterioration in rural standards of living and increased alienation of rural political groups from urban alliances At the same time within the rural sector reform failed to reverse rural egalitarianism In addition the nature of state interventions has undermined attempts to create a vibrant productive private rural sector based on private farming Wegren s research is based upon extensive field work interviews archival documents and published and unpublished source material conducted over a six year period and he demonstrates the link between agrarian reform and the success of overall reform in Russia This learned and often controversial volume will interest political scientists policy makers and scholars and students of contemporary Russia

Executive Power and Soviet Politics Eugene Huskey, 2016-06-16 Ever since the behavioral revolution reached Communist studies more than 2 decades ago Western scholarship has tended to ignore the powerful and unwieldy institutional structure of the Soviet government Today suddenly it is clear that the dramatic political and legislative reforms of the Gorbachev years will remain incomplete as long as the issues of state bureaucratic power and executive prerogative are unresolved This volume brings together original studies of the Soviet executive under Gorbachev by specialists including Barbara Chotiner Stephen Fortescue Brnda Horrigan Ellen Jones Wayne Limberg T H Rigby and Louise Shelley Among the topics covered are the major economic national security and law enforcement ministries the presidency the cabinet and questions of presidential ministerial presidential legislative executive and party state relations *Rural Adaptation in Russia* Stephen K. Wegren, 2022-05-19 The current dominant approach to Russian peasant behaviour emphasizes rural resistance to reform in broad terms and to the introduction of market forces in particular Bringing together

some of the finest scholars on rural Russia this groundbreaking volume examines this perception with an analysis of both historical and contemporary patterns of rural adaptation in Russia Four articles included analyze peasant responses in the post Soviet era and focus on the relationship between poverty and rural adaptation the social origins of private farmers in southern Russia and Ukraine response patterns by large farms formerly collective and state farms household adaptation using a standardized set of criteria This fascinating book gives an illuminating picture of the ways in which peasants respond to new environmental conditions and stimuli created by reform The substantive material included draws on fieldwork and survey data collected from rural Russia from the Stolypin reforms in the pre Soviet era and collectivisation of agriculture during the 1930s in the Soviet era This book was previously as a special issue of The Journal of Peasant Studies

State Erosion Lawrence P. Markowitz, 2013-10-11 State failure is a central challenge to international peace and security in the post Cold War era Yet theorizing on the causes of state failure remains surprisingly limited In State Erosion Lawrence P Markowitz draws on his extensive fieldwork in two Central Asian republics Tajikistan where state institutions fragmented into a five year civil war from 1992 through 1997 and Uzbekistan which constructed one of the largest state security apparatuses in post Soviet Eurasia to advance a theory of state failure focused on unlootable resources rent seeking and unruly elites In Tajikistan Uzbekistan and other countries with low capital mobility where resources cannot be extracted concealed or transported to market without state intervention local elites may control resources but they depend on patrons to convert their resources into rents Markowitz argues that different rent seeking opportunities either promote the cooptation of local elites to the regime or incite competition over rents which in turn lead to either cohesion or fragmentation Markowitz distinguishes between weak states and failed states challenges the assumption that state failure in a country begins at the center and radiates outward and expands the resource curse argument to include cash crop economies where mechanisms of state failure differ from those involved in fossil fuels and minerals Broadening his argument to weak states in the Middle East Syria and Lebanon and Africa Zimbabwe and Somalia Markowitz shows how the distinct patterns of state failure in weak states with immobile capital can inform our understanding of regime change ethnic violence and security sector reform

Sowing Market Reforms M. Crumley, 2013-09-18 By examining a sector of the economy that was exposed to increased imports more than four decades ago Crumley illuminates the economic pressures resistance and reform that help to shape Russia's agrarian sector today

The Moral Economy Reconsidered S. Wegren, 2005-08-19 Sure to be controversial and spur debate this book presents a powerful analysis of rural change to marketization and globalization Using Russia as a case study it examines the how the rural population responded to reform policies during the transition away from communism Wegren draws upon extensive field work survey data interviews and wide ranging Russian language source material to investigate adaptive behaviours by different groups of the rural population The differentiated and nuanced analysis sheds considerable light on debates over whether actors are motivated mainly by rational or moral considerations
