## The Path:

**Groundless Paths** Karl Brunnholzl, 2012-08-14 The Abhisamayalamkara summarizes all the topics in the vast body of the prajāpāramitā sūtras. Resembling a zip file, it comes to life only through its Indian and Tibetan commentaries. Together, these texts not only discuss the hidden meaning of the prajāpāramitā sūtras, the paths and bhūmis of śrāvakas, pratyekabuddhas, and bodhisattvas, but also serve as contemplative manuals for the explicit topic of these sūtras: emptiness, and how it is to be understood on the progressive levels of realization of bodhisattvas. Thus, these texts describe what happens in the mind of a bodhisattva who meditates on emptiness, making it a living experience from the beginner's stage up through buddhahood. Groundless Paths contains the first in-depth study of the Abhisamayalamkara, the text studied most extensively in higher Tibetan Buddhist education, and its commentaries from the perspective of the Nyingma School of Tibetan Buddhism. This study consists mainly of translations of Maitreya's famous text and two commentaries on it by Patrul Rinpoche. These are supplemented by three short texts on the paths and bhūmis by the same author, as well as extensive excerpts from commentaries by six other Nyingma masters, including Mipham Rinpoche. Thus, this book helps close a long-standing gap in the modern scholarship on the prajāpāramitā sūtras and the literature on paths and bhūmis in Mahāyāna Buddhism. Arya Maitreya's Ornament of Clear Realization, with its Indian and Tibetan commentaries, presents the complex dynamics of the path to liberation as a succession of realizations of the empty nature of all phenomena. This presentation is a powerful antidote to whatever two-dimensional views we might hold about spiritual experience and the journey to enlightenment.

Taking students out of the classroom and into a variety of settings is now recognized as a valuable means of teaching ecological concepts and environmental values. This volume specifically surveys field studies conducted through colleges and universities. The essays, arranged into three sections, offer rationales, pedagogical strategies, and foundational advice and information that broaden and strengthen the collective knowledge of this increasingly popular means of instruction. The essays present theoretical information within candid narratives that report on various aspects of field experiences, whether
