**Anthropological Perspectives on Global Challenges** Emma Gilberthorpe, 2024-03-28 This volume offers a snapshot of anthropological perspectives on global challenges Whilst it could not hope to represent the full scope of anthropological perspectives those that are presented highlight some of the critical flaws embedded in such an all encompassing notion The contributors reveal the possibilities of reimagining the ways in which challenges are understood and addressed and demonstrate how a combination of deep understanding of the past and collaboration cooperation and inclusive dialogue about the future can improve the chances of positive action The collection thus not only shows us that perspectives must change but also how that change might be realised Whilst the chapters are authored solely by anthropologists this book is not solely for anthropologists The book is illustrative of the practical and theoretical insights that anthropology can offer those individuals teams and policy and decision makers engaged in research mitigation and or intervention practices in relation to the global challenges Beyond academia it contributes to broader understandings of the challenges we collectively face at this point in time and how we might collectively and effectively address them **The Other Side** John Patrick

Taylor, 2008-07-08 The Other Side is the first major ethnographic and historical study of the Sia Raga people of north Pentecost Island a region that was home to the late Father Walter Lini Vanuatu's first prime minister Exploring Raga social spatial and historical consciousness this richly poetic account provides important theoretical contributions to ongoing debates in Pacific anthropology about the relation between structure and history and place and time It reveals important insights into the convergence of indigenous and exogenous cosmologies and hegemonies historically and shows how these are implicated in contemporary social ritual and material cultural expressions These analyses engage with broader concerns relating to colonial and postcolonial identities political economy and globalization in island Melanesia The Other Side combines original and substantial ethnography with sophisticated theoretical reflection that will appeal broadly across the field of anthropology It will also be of considerable value to scholars of Pacific and Melanesian history politics and society The clear writing and entertaining narrative combine to create a work that is accessible to a wide audience The volume's critical and reflective analysis of anthropological research makes it a valuable teaching aid in courses that focus on ethnographic methods and writing Students in Pacific anthropology will find it especially useful 37 **New Guinea** Clive

Moore, 2003-07-31 New Guinea the world's largest tropical island is a land of great contrasts ranging from small glaciers on its highest peaks to broad mangrove swamps in its lowlands and hundreds of smaller islands and coral atolls along its coasts Divided between two nations the island and its neighboring archipelagos form Indonesia's Papua Province or Irian Jaya and the independent nation of Papua New Guinea both former European colonies Most books on New Guinea have been guided by these and other divisions separating east from west prehistoric from historic precontact from postcontact colonial from postcolonial This is the first work to consider New Guinea and its 40 000 year history in its entirety The volume opens with a

look at the Melanesian region and argues that interlocking exchange systems and associated human interchanges are the invisible government through which New Guinea societies operate. Succeeding chapters review the history of encounters between outsiders and New Guinea's populations. They consider the history of Malay involvement with New Guinea over the past two thousand years, demonstrating the extent to which west New Guinea, in particular, was incorporated into Malay trading and raiding networks prior to Western contact. The impact of colonial rule, economic and social change, World War II, decolonization and independence are discussed in the final chapter.

**Journal of Pacific Studies**, 2004 *House-Girls Remember* Margaret Rodman Critchlow, Daniela Kraemer, Lissant Bolton, Jean Tarisesei, 2007-06-30 Giving voice to the women who worked as maids known as house girls in the Pacific islands of Vanuatu is the goal of this innovative work. The stories the women tell resonate with the experiences of domestic workers around the world; their histories contribute to theorizing intimacy and traveling culture and their struggles with adverse working conditions help find solutions which are outlined at the end of the book. In addition to contributions by the editors, workshop reports by eleven ni Vanuatu women fieldworkers and ten others who spoke about their lives as house girls are included. These reports detail ni Vanuatu women's experiences as domestic workers during the colonial period. One chapter presents an elderly French woman's recollections of the Vietnamese orphan who grew up in her home and worked as a house girl. Material from contemporary house girls appears in a final chapter based on research conducted in Port Vila.

**Law and Order in a Weak State** Sinclair Dinnen, 2000-11-01 Twenty five years after independence Papua New Guinea is beset by social, economic and political problems: poverty and inequality, a young and expanding population, a stagnant economy, corruption and rising crime. The state has not only failed to contain these problems but has become progressively implicated in their persistence. Escalating levels of violence and lawlessness are seen by many as the most serious challenge facing the young country. This book examines these problems of order in light of Papua New Guinea's remarkable social diversity and the impact of rapid and pervasive processes of change. Three original and strategic case studies involving urban gangs, mining security and election violence form the core of the work. Each case study looks at particular forms of conflict and the responses these engender across different socioeconomic contexts and geographic locations. Empirical data are analyzed through a common framework that employs material, cultural and institutional perspectives, allowing readers to view the three cases through different theoretical prisms, identify linkages between them and in the process build a larger picture of the post colonial social order. *Law and Order in a Weak State* charts not only the problems of crime and lawlessness in Papua New Guinea but also the possibilities for constructive, pragmatic solutions. It will be of great interest to scholars, aid and policy officials and others concerned with understanding the social complexities and challenges of contemporary Papua.

New Guinea     *The People Trade* Dorothy Shineberg,1999-05-31 The story of the people from the New Hebrides Vanuatu and the Solomon Islands who left their homes to work in the French colony of New Caledonia has long remained a missing piece of Pacific Islands history Now Dorothy Shineberg has brought these laboreres to life by painstakingly assembling fragments from a wide variety of scattered records and documents She tells the story of their recruitment then sketches the workers lives in New Caledonia describing the contractual arrangements the kinds of work they did their living conditions how they spent their free time the large numbers who sickened and died and the choice at the end of the contract to remain in the colony as free workers or to return home Throughout the book she throws light on the controversy about the recruiting of the Islanders were they kidnapped Or did they choose to leave home If so what motivated them Evidently the Islanders cheap labor contributed to the development of the French colony but how did the episode affect them and their homeland The People Trade offers readers a revealing new picture of a long neglected side of the Pacific Islands labor trade     **The Far East and Australasia 2003** Europa Publications,2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume     Voyaging Through the Contemporary Pacific David L. Hanlon,Geoffrey Miles White,2000 The Pacific has long been a site for debates over disciplinary approaches and the ethics and politics of research within neocolonial and postcolonial contexts This volume makes a significant contribution to these debates and to the related and ongoing exchanges concerning area studies the globalization of capitalism and its attendant cultural social and political effects In so doing the authors link work from the Pacific with theoretical and methodological issues raised in other areas of the globe This collection of the best from Contemporary Pacific will prove invaluable to scholars students and all interested in the study of history culture and identity in the Pacific and in post colonial societies everywhere     **Association for Social Anthropology in Oceania Newsletter** Association for Social Anthropology in Oceania,1999     Historical Abstracts Eric H. Bowker Company, 1978 The Kanak Awakening David A. Chappell, 2013-10-31 In 1853 France annexed the Melanesian islands of New Caledonia to establish a convict colony and strategic port of call Unlike other European settler dominated countries in the Pacific the territory s indigenous people remained more numerous than immigrants for over a century Despite military conquest land dispossession and epidemics its thirty language groups survived on tribal reserves and nurtured customary traditions and identities In addition colonial segregation into the racial category of canaques helped them to find new unity When neighboring anglophone colonies began to decolonize in the 1960s France retained tight control of New Caledonia for its nickel reserves reversing earlier policies that had granted greater autonomy for the islands Anticolonial protest movements culminated in the 1980s Kanak revolt after which two negotiated peace accords resulted in autonomy in a progressive form and officially recognized Kanak identity for the first time But the near parity of settlers and Kanak continues to make nation building a challenging task despite a 1998 agreement among Kanak and settlers to seek a common destiny This study examines the rise in New Caledonia of rival identity formations that became increasingly polarized in the 1970s and examines in particular the emergence of activist discourses in favor of Kanak cultural nationalism and land reform multiracial progressive sovereignty or a combination of both aspirations Most studies of modern New Caledonia focus on the violent 1980s uprising which left deep scars on local memories and identities Yet the genesis of

that rebellion began with a handful of university students who painted graffiti on public buildings in 1969 and such activists discussed many of the same issues that face the country's leadership today. After examining the historical, cultural, and intellectual background of that movement, this work draws on new research in public and private archives and interviews with participants to trace the rise of a nationalist movement that ultimately restored self-government and legalized indigenous aspirations for sovereignty in a local citizenship with its own symbols. Kanak now govern two out of three provinces and have an important voice in the Congress of New Caledonia, but they are a slight demographic minority. Their quest for nationhood must achieve consensus with the immigrant communities, much as the founders of the independence movement in the 1970s recommended.     **Anthropos** ,2000     *Choice* ,2000     **Anthropology News** ,2000
