The Peoples Religion American Faith In The Nineties:

Multiculturalism and the Politics of Guilt Paul Edward Gottfried, 2004-01-02 Multiculturalism and the Politics of Guilt extends Paul Gottfried's examination of Western managerial government's growth in the last third of the twentieth century. Linking multiculturalism to a distinctive political and religious context, the book argues that welfare state democracy, unlike bourgeois liberalism, has rejected the once conventional distinction between government and civil society. Gottfried argues that the West's relentless celebrations of diversity have resulted in the downgrading of the once dominant Western culture. The moral rationale of government has become the consciousness-raising of a presumed majority population. While welfare states continue to provide entitlements and fulfill the other material programs of older welfare regimes, they have ceased to make qualitative leaps in the direction of social democracy. For the new political elite, nationalization and income redistributions have become less significant than controlling the speech and thought of democratic citizens. An escalating hostility toward the bourgeois Christian past, explicit or at least implicit in the policies undertaken by the West and urged by the media, is characteristic of what Gottfried labels an emerging therapeutic state. For Gottfried, acceptance of an intrusive political correctness has transformed the religious consciousness of Western, particularly Protestant, society. The casting of true Christianity as a religion of sensitivity only toward victims has created a precondition for extensive social engineering. Gottfried examines late twentieth-century liberal Christianity as the promoter of the politics of guilt. Metaphysical guilt has been transformed into self-abasement in relation to the suffering just identified with racial, cultural, and lifestyle minorities. Unlike earlier proponents of religious liberalism, the therapeutic statist opposes anything including empirical knowledge that impedes the expression of social and cultural guilt in an effort to raise the self-esteem of designated victims. Equally troubling to Gottfried is the growth of an American empire that is influencing European values and fashions. Europeans have begun, he says, to embrace the multicultural movement that originated with American liberal Protestantism's emphasis on diversity as essential for democracy. He sees Europeans bringing authoritarian zeal to enforcing ideas and behavior imported from the United States. Multiculturalism and the Politics of Guilt extends the arguments of the author's earlier *After Liberalism*. Whether one challenges or supports Gottfried's conclusions, all will profit from a careful reading of this latest diagnosis of the American condition.

Religion in America Since 1945 Patrick Allitt, 2003 Identifying the major trends and telling moments within both major denominations and other less formal religious movements, Allitt asks how these religious groups have shaped and been shaped by some of the most important and divisive political issues and events of the last half century, including the Cold War, the Civil Rights Movement, the Vietnam War, feminism, and the sexual revolution, abortion rights, and the antinuclear and environmentalist movements.

Televangelism and American Culture Quentin J. Schultze, 2003-09-15 Not just another trashing of televangelism, Schultze's sensitive critique of present patterns of religious programming is meant to promote a more responsible Christian use of the television medium. His book deserves to be read by all who care deeply

about the obedient proclamation of the gospel in contemporary culture Richard Mouw The problems Schultze addresses are more profound than sexual or financial scandals They are rather problems of idolatry substituting a charismatic image on the screen of God heresy defining the faith by what it will do for me and ecclesiastical suicide transforming churches into audiences Amazingly after such an indictment Schultze holds out hope for the Christian use of television Mark Noll The most intelligent report on televangelism that I have read and I suspect the best ever Clearly the work of a smart student a discerning watcher and fair critic of the media but best of all a careful Christian mind Lewis Smedes Schultze's concluding chapter should be required reading for every Christian It provides solid biblical guidelines for calling religious broadcasters to accountability challenges individual Christians as well as the Christian media to be more critical and selective in their support of religious broadcasters and calls Christian educators to address the implications of living in the television age Steve Rabey Christianity Today A disturbing book useful both for the author's cultural and Christian critique and for his citation of a wide range of evidence Lloyd Averill The Christian Century **It Takes a Church to Raise a Christian** Tod E.
