The Pequots In Southern New England:

The Pequots in Southern New England Laurence M. Hauptman, James D. Wherry, 1990 Before their massacre by Massachusetts Puritans in 1637 the Pequots were preeminent in southern New England. Their location on the eastern Connecticut shore made them important producers of the wampum required to trade for furs from the Iroquois. They were also the only Connecticut Indians to oppose the land hungry English. For those reasons they became the first victims of white genocide in colonial America. Despite the Pequot War of 1637 and the greed and neglect of their white neighbors and overseers the Pequots endured in their ancestral homeland. In 1983 they achieved federal recognition. In 1987 they commemorated the 350th anniversary of the Pequot War by organizing the Mashantucket Pequot Historical Conference at which distinguished scholars presented the articles assembled here

The Indians of the Nipmuck Country in Southern New England, 1630-1750 Dennis A. Connole, 2007-01-23 The North American Indian group known as the Nipmucks was situated in south central New England and during the early years of Puritan colonization remained on the fringes of the expanding white settlements. It was not until their involvement in King Philip's War 1675-1676 that the Nipmucks were forced to flee their homes and lands to be redistributed among the settlers. This group which actually includes four tribes or bands the Nipmucks Nashaways Quabaugs and Wabaquassets has been enmeshed in myth and mystery for hundreds of years. This is the first comprehensive history of their way of life and its transformation with the advent of white settlement in New England. Spanning the years between the Nipmucks first encounters with whites until the final disposal of their lands this history focuses on Indian-white relations the position or status of the Nipmucks relative to the other major New England tribes and their social and political alliances. Settlement patterns population densities tribal limits and land transactions are also analyzed as part of the tribe's historical geography. A bibliography allows for further research on this mysterious and often misunderstood people group

Native People of Southern New England, 1650-1775 Kathleen Joan Bragdon, 2009 A three volume documentary set exploring the natural world. The IMAX film Volcanoes of the Deep Sea examines the active volcanoes deep beneath the North Atlantic Ocean. The film follows Alvin a mechanised deep sea probe as it journeys thousands of feet underwater to explore the constantly erupting volcanic rift beneath the Azores between Europe and North America. Grand Canyon Adventure River At Risk deals with water conservation and is narrated by Robert Redford. The film sees Robert F. Kennedy Jr and Wade Davis journey down the Colorado River into the depths of the Grand Canyon as they discuss this environmental issue. The footage captures the vastness of the landscape while explaining the need to conserve water. Finally Journey Into Amazing Caves follows Dr Hazel Barton and Nancy Aulenbach as they investigate caves in Greenland the Grand Canyon and Mexico. The explorers hope to find evidence about the history of the Earth and discover more about the microorganisms that live in extreme conditions

Drawing on archaeological, linguistic and anthropological evidences to trace the evolution of the conflict he sheds new light on the motivations of the Pequots and their Indian allies. He also provides a reappraisal of the interaction of ideology and self-interest as motivating factors in the Puritan attack on the Pequots.
