The Overseas Expansion Of Capital Past And Present:

The Overseas Expansion of Capital Andreï Andreevich Gromyko, 1985 *The Past, Present and Future of International Business and Management* Timothy Devinney, Torben Pedersen, Laszlo Tihanyi, 2010-07-27 A volume that concentrates on the substantive gaps in the IB IM field and addresses whether these gaps are resolvable with the theoretical and methodological toolkit **Routledge Handbook of International Education and Development** Simon McGrath, Qing Gu, 2015-07-24

This timely Handbook takes stock of the range of debates that characterise the field of international education and development and suggests key aspects of a research agenda for the next period. It is deliberately divergent in its approach, recognising the major ideological and epistemological divides that characterise a field that draws on many traditions. Leading and emergent voices from different paradigms and contexts are afforded a space to be heard and each section puts current debates in larger historical contexts. The Handbook is divided in four parts and book ended by an introduction and a conclusion, the latter oriented towards the implications that the volume has for future research agendas. The first part explores major strands of debates about education's place in development theory. The second acknowledges the disciplining of the field by the education for all movement and examines the place that learning and teaching and schools play in development. Part three looks beyond schools to consider early years, adult and vocational education but focuses particularly on the return to thinking about higher education's role in development. The final part considers the changing but still important role that international cooperation plays in shaping education in developing countries. Featuring over thirty chapters written by leading international and interdisciplinary scholars, the Routledge Handbook of International Education and Development offers the first comprehensive and forward looking resource for students and scholars. **Finance,**

Growth and Democracy: Connections and Challenges in Europe and Latin America in the Era of Permacrisis

Dimitris Katsikas, Maria Antonieta Del Tedesco Lins, Andrea Ribeiro Hoffmann, 2024-10-31 The present volume uses a comparative regional approach to analyze how permacrisis, an extended period of instability and insecurity, has been experienced and dealt with in the European Union (EU) and Latin America. Written by academicians and policy experts from both regions, the volume has three main objectives. Firstly, it critically evaluates the response of regional organizations and governments in the EU and Latin America to the crises that have shaken these regions in recent years. Secondly, chapters contribute to a better understanding of the promised benefits and risks of digital currencies and fintech, more generally to economic growth, financial stability and inclusion. Finally, the volume promotes an understanding of the challenges of permacrisis in both the EU and Latin America, as well as encouraging their cooperation at the multilateral and bi-regional levels. Providing an interdisciplinary perspective, this volume will be of interest to researchers and students of international relations, international political economy, international finance and economics, international law, global governance and regionalism, as well as public officials of ministries of foreign affairs, finance and the economy, public officials of international

and regional organizations This is an open access book **Foreign Investment and American Jobs** United States. Congress. House. Committee on International Relations. Subcommittee on International Economic Policy,1976
