Howard S. Selden, 2010      Trading with Pariahs Keith A. Preble, Charmaine N. Willis, 2024-08-22 The past few decades have witnessed a proliferation of economic sanctions yet there seem to be few examples of sanctions meeting sender states goals Under what conditions do sanctions fail to change the behavior of so called international pariah states countries who violate various international norms This book examines the impact of economic sanctions on target states trading relationships through social network analysis a method that has rarely been applied to the study of sanctions Drawing on UN Comtrade data Trading with Pariahs Trade Networks and the Failure of Economic Sanctions shows that the imposition of sanctions can drastically change some states trading networks as states either find new trading partners in the case of North Korea or feel the sting of the sanctions from key trading partners like Iran Trading networks such as Myanmar's remain relatively stable over time as key trading partners refuse to impose sanctions Through the theory of weaponized interdependence Keith A Preble and Charmaine N Willis argue that the success or failure of sanctions to change target states behavior depends on who imposes the sanctions Sanctions imposed by the right sender states can be successful but also cannot rely solely on policies of isolation to achieve the goals of the sanctions      **Right-Wing Movements in North America and Europe** Hank
