**Autisme** Caren Zucker, John Donvan, 2016-09-16 Alles wat je over autisme wilt weten staat in dit monumentale boek Aan de hand van persoonlijke ervaringen van kinderen en volwassenen met autisme van deskundigen maar ook van ouders die naar behandelwijzen voor hun kinderen zoeken vertellen John Donvan en Caren Zucker het hele verhaal Ze gaan uitvoerig in op de controverses de experimentele behandelwijzen en de vraag of er werkelijk sprake is van een autisme epidemie Door toegenomen kennis komen ook de voordelen van autisme aan het licht De bekroonde journalisten Donvan en Zucker schreven een standaardwerk over autisme en onze inspanningen om de aandoening te begrijpen De eerste persoon die de diagnose autisme kreeg was Donald Triplett die ruim tachtig jaar geleden in de VS geboren werd Zijn levensverhaal vormt het uitgangspunt voor Autisme de volledige en bijzondere biografie van deze zo vaak verkeerd begrepen aandoening The Chicago of Fiction James A. Kaser, 2011-02-01 The importance of Chicago in American culture has made the city's place in the American imagination a crucial topic for literary scholars and cultural historians While databases of bibliographical information on Chicago centered fiction are available they are of little use to scholars researching works written before the 1980s In The Chicago of Fiction A Resource Guide James A Kaser provides detailed synopses for more than 1 200 works of fiction significantly set in Chicago and published between 1852 and 1980 The synopses include plot summaries names of major characters and an indication of physical settings An appendix provides bibliographical information for works dating from 1981 well into the 21st century while a biographical section provides basic information about the authors some of whom are obscure and would be difficult to find in other sources Written to assist researchers in locating works of fiction for analysis the plot summaries highlight ways in which the works touch on major aspects of social history and cultural studies i e class ethnicity gender immigrant experience and race The book is also a useful reader advisory tool for librarians and readers who want to identify materials for leisure reading particularly since genre juvenile and young adult fiction as well as literary fiction are included In a Different Key John Donvan, Caren Zucker, 2016-01-19 The stunning history of autism as it has been discovered and felt by parents children and doctors Nearly seventy five years ago Donald Triplett of Forest Mississippi became the first child diagnosed with autism In a Different Key tells the extraordinary story of the world his diagnosis created a riveting human drama that takes us across continents and through some of the great social movements of the twentieth century The history of autism is above all the story of families fighting for a place in the world for their children It is the story of women like Ruth Sullivan who rebelled against a medical establishment that blamed refrigerator mothers for causing autism of fathers who pushed scientists to dig harder for treatments of parents who forced schools to accept their children But many others played starring roles too doctors like Leo Kanner who pioneered our understanding of autism scientists who sparred over how to treat autism and those with autism like Temple Grandin and Ari Ne'eman who explained their inner worlds and championed a philosophy of neurodiversity This is also a story of fierce controversy from the question

of whether there is truly an autism epidemic and whether vaccines played a part in it to scandals involving facilitated communication one of many treatments that have proved to be blind alleys And there are dark turns too we learn about experimenters feeding LSD to children with autism or shocking them with electricity to change their behavior and the authors reveal for the first time that Hans Asperger discoverer of the syndrome named after him may have cooperated with the Nazis in sending disabled children to their deaths By turns intimate and panoramic In a Different Key takes us on a journey from an era when families were shamed and children were condemned to institutions to one in which parents and people with autism push not simply for inclusion but for a new understanding of autism as difference rather than disability

Bettelheim Out Of Print,1996-05-16 As the internationally famous director of the Orthogenic School in Chicago and the author of a dozen bestsellers on Nazism child rearing emotional disturbances and fairy tales Bettelheim was always surrounded by controversy He was a Jew who rejected the inevitability of the Holocaust a psychoanalyst who challenged the very notion of insanity and a man who liked to shroud his life in mystery and sometimes outright lies **The Creation of**

*Light* Theron Raines,2002 In 1983 after years of trying to persuade Bruno Bettelheim to write his autobiography Theron Raines his friend and literary agent himself undertook to tell the life of the renowned but often controversial child psychologist With no thought of writing a conventional biography Raines began a series of interviews in which Bettelheim reflected at length upon the major moments triumphs crises and tragedies of his extraordinary life *Rising to the Light* is the fascinating synthesis of these encounters and of Raines s interviews with counselors teachers and former students from the world famous Orthogenic School Here is Bettelheim s sudden passage from a life of wealth and luxury in Vienna to the appalling brutality of Dachau and Buchenwald where his intellect helped him survive the horrific conditions that often broke down a prisoner s personality His understanding of the parallels between the extreme situation of a concentration camp prisoner and the inner world of a disturbed child would shape him as a therapist Here is his voyage from the Old World to the New and his professional ascent in Chicago where he developed a total therapeutic milieu for children unable to survive emotionally at home or in any other school Though he had no specialized training he was uniquely qualified by his uncanny insights into children and his deep Freudian and post Freudian convictions about human nature and behavior Based on his success as a clinician and teacher he would go on to become a best selling author But toward the end of a long life Bettelheim would succumb to a stroke and to a devastating depression intensified by his feelings of uselessness when he was no longer able to do the work that had been his daily salvation for so many decades Raines who visited him twice in his last weeks also gives us the days just before the puzzling suicide of this man who had endured and built so much Despite his demonstrably tireless commitment to children Bettelheim s reputation was blemished after his death by attacks on his

writings and his unorthodox clinical methods in particular his use of physical discipline in the psychotherapeutic setting Raines's conversations with Bettelheim have much to tell us about this bitterly disputed aspect of his legacy and they reveal a complex man who had to explore the boundary between compassion and brutality *Rising to the Light* is a portrait of a great teacher it gives us a more direct line of sight into the Bettelheim enigma than any other book is likely to provide **The American Journal of Psychiatry**, 1984-09 Contemporary Authors Hal May, 1986-02 Your students and users will find biographical information on approximately 300 modern writers in this volume of Contemporary Authors R Authors in this volume include Quentin Crisp Marcel Duchamp Monty Python *Bibliography for Training in Child and Adolescent Mental Health* Irving N.
