Spartacus International Web Guide:

The Color of Desire Christopher Ewing, 2024-01-15 The Color of Desire tells the story of how in the aftermath of gay liberation race played a crucial role in shaping the trajectory of queer German politics. Focusing on the Federal Republic of Germany, Christopher Ewing charts both the entrenchment of racisms within white queer scenes and the formation of new antiracist movements that contested overlapping marginalizations. Far from being discrete political trajectories, racist and antiracist politics were closely connected as activists worked across groups to develop their visions for queer politics. Ewing describes not only how AIDS workers, gay tourists, white lesbians, queer immigrants, and Black feminists were connected in unexpected ways but also how they developed contradictory concerns that comprised the full landscape of queer politics. Out of these connections, which often exceeded the bounds of the Federal Republic, arose new forms of queer fascism as well as their multiple antiracist contestations. Both unsettled the appeals to national belonging or homonationalism on which many white queer activists based their claims. Thus the story of the making of homonationalism is also the story of its unmaking. The Color of Desire explains how the importance of racism to queer politics cannot and should not be understood without also attending to antiracism. Actors worked across different groups, making it difficult to chart separable political trajectories. At the same time, antiracist activists also used the fractures and openings in groups that were heavily invested in the logics of whiteness to formulate new antiracist organizations and, albeit in constrained ways, shifted queer politics more generally.

Gay Tourism Gordon Waitt, Kevin Markwell, 2014-06-03 The gay tourism industry is a progressive social force or a pull towards an oppressive status quo. The pink tourism dollar is now recognized as a highly profitable niche of the tourism market. *Gay Tourism Culture and Context* critically investigates the emergence of a commercial gay tourism industry for male clients, the way it is organized, and how the tourism industry promotes cities, resorts, and nations as gay destinations. This careful examination critically questions the social, political, and cultural implications regarding relationships between gay tourism, Western gay male culture, the erotic sexual politics, and sexual diversity. *Gay Tourism Culture and Context* begins by detailing how travel often enabled the expression of Western same sex male desire in the nineteenth century and then charts the emergence of a Western gay tourism industry in the late twentieth century. A critical analysis is given of gay guidebooks and erotic videos that help to establish and maintain destinations as seemingly gay utopias, including Hawaii and the Greek island Mykonos. Careful consideration is given to debates about how the gay tourism industry operates in the context of questions regarding the globalization of sexuality, sexual citizenship, and place marketing of homo sexualised cities. The text includes an extensive bibliography plus several photographs, charts, and figures to clearly present concepts and ideas. Topics in *Gay Tourism Culture and Context* include the history of gay travel and tourism, the effect of HIV/AIDS on gay tourist destinations, gay travel writing, sustaining same sex fantasies about popular gay tourist destinations, analysis of the socio-political ramifications of gay tourism, the sexual politics of a heterosexual nation, gay tourists as an invading force of corruption, the

economic rationale for the homo sexualized city the concept of gay villages the role of special events and festivals in gay tourism and many more Gay Tourism Culture and Context is enlightening reading for tourism policymakers tourism planners tourism managers and teachers and students in the fields of tourism studies gay studies social and cultural geography and sociology
