The Body/Body Problem Arthur C. Danto, 2001-04-06 A collection of essays by philosopher and art critic Arthur Danto focusing on mental representation and the body

Embodiment and the New Shape of Black Theological Thought Anthony B. Pinn, 2010-06-01 Black theology tends to be a theology about no body Though one might assume that black and womanist theology have already given significant attention to the nature and meaning of black bodies as a theological issue this inquiry has primarily taken the form of a focus on issues relating to liberation treating the body in abstract terms rather than focusing on the experiencing of a material fleshy reality By focusing on the body as a physical entity and not just a metaphorical one Pinn offers a new approach to theological thinking about race gender and sexuality According to Pinn the body is of profound theological importance In this first text on black theology to take embodiment as its starting point and its goal Pinn interrogates the traditional source materials for black theology such as spirituals and slave narratives seeking to link them to materials such as photography that highlight the theological importance of the body Employing a multidisciplinary approach spanning from the sociology of the body and philosophy to anthropology and art history

Embodiment and the New Shape of Black Theological Thought pushes black theology to the next level *Ideal Embodiment* Angelica Nuzzo, 2008-10-28 Angelica Nuzzo offers a comprehensive reconstruction of Kant's theory of sensibility in his three Critiques By introducing the notion of transcendental embodiment Nuzzo proposes a new understanding of Kant's views on science nature morality and art She shows that the issue of human embodiment is coherently addressed and key to comprehending vexing issues in Kant's work as a whole In this penetrating book Nuzzo enters new terrain and takes on questions Kant struggled with How does a body that feels pleasure and pain desire anger and fear understand and experience reason and strive toward knowledge What grounds the body's experience of art and beauty What kind of feeling is the feeling of being alive As she comes to grips with answers Nuzzo goes beyond Kant to revise our view of embodiment and the essential conditions that make human experience possible *Sūtras, Stories and Yoga Philosophy* Daniel

Raveh, 2016-07-01 This book presents a close reading of four Indian narratives from different time periods epic Upaniadic pre modern and contemporary Ekalavya's story from the Mahabharata MBh 1.123.1-39 the story of Prajapati Indra and Virochana from the Chandogya Upanishad CU 8.7.1-8.12.5 the story of Ananka in the King's body from the Ankaradigvijaya and A.R. Murugadoss's Hindi film Ghajini 2008 respectively These stories are thematically juxtaposed with Patajali's Yogastra and its vast commentarial body Thestras reveal hidden philosophical layers The stories on the other hand contribute to the clarification of philosophical junctions in the Yogastra Throughstras and stories the author explores the question of self identity with emphasis on the role of memory and the place of body in identity formation Each of the stories diagnoses the connection between self identity and at least a sense of freedom Employing cutting edge methodology crossing the boundaries of literary theory story telling and philosophical reflection this book presents fresh interpretations of

Indian thought It is useful to specialists in Asian philosophy and culture Interplay of Things Anthony B. Pinn, 2021-09-20
Drawing on literature along with the visual and performing arts Anthony B Pinn theorizes religion as a technology for
interrogating human experiences understanding the ways in which things are always involved in processes of exchange and
interplay Black Religion and Aesthetics A. Pinn, 2009-07-06 A great deal of attention has been given to the sociopolitical
and theological importance of Black Religion However of less academic concern up to this point is the aesthetic qualities that
define much of what is said and done within the context of Black Religion Recognizing the centrality of the black body for
black religious thought and life this book proposes a conversation concerning various dimensions of the aesthetic
considerations and qualities of Black Religion as found in various parts of the world including the Americas the Caribbean
Africa and Europe In this respect Black Religion is simply meant to connote the religious orientations and arrangements of
