Nichols, 2000-07 **Mind the Body** Frédérique de Vignemont, 2018 Our own body seems to be the object that we know the best for we constantly receive a flow of internal information about it Yet bodily awareness has attracted little attention in the literature Mind the Body is the first comprehensive treatment of bodily awareness Fr d rique de Vignemont seeks to answer questions such as how do I perceive my body How do I perceive other people s bodies Can I really feel your pain What makes me feel this specific body is my own Why do I care about it To what extent can I feel an avatar s body as my own To answer these questions we need a better understanding of the various aspects of bodily self awareness including the spatiality of bodily sensations their multimodality their role in social cognition their relation to action and to self defence This volume combines philosophical analysis with recent experimental results from cognitive science leading us to question some of our most basic intuitions
