Osborn, Kerry K. Karukstis, Elizabeth L. Ambos, 2015-03-30 Undergraduate research is a high impact practice that sparks students interest in learning and love for the discipline and it improves retention student success graduation rates and postgraduation achievement Many individual campuses have offered these programs for several years and the Council on Undergraduate Research CUR has supported their efforts in many ways More recently CUR has partnered with state systems of higher education and public and private consortia to foster the institutionalization of undergraduate research at the member institutions and across the systems consortia From publisher      **Pathways to Social Class** Daniel Bertaux, Paul Richard Thompson, 2006-01-01 Calling for a broader new approach to social mobility research Pathways to Social Class A Qualitative Approach to Social Mobility moves beyond pure statistics to use qualitative techniques such as life stories and family case studies to examine more closely the dynamics of mobility and address more fundamental sociological questions Up to now the extensive sociological literature on mobility has been based around the survey method As a result we have access to abundant statistical data but there is little information available to explain how and why people follow particular life paths To overcome these limitations Bertaux and Thompson have developed an alternative complementary

approach using life stories case histories of whole families over several generations or case studies of local communities Employing the case study approach does not prevent the identification of structural trends on the contrary it allows us to analyze those collective processes through their local effects restoring the links with classics of sociological thought Bertaux and Thompson tackle such problems as What exactly is transmitted between generations is it wealth or land occupational models or skills social networks or values and orientations What kinds of assets can immigrants draw on How can a social elite survive the upheaval of a popular revolution What is the impact of marriage on the mobility of men and women How far can belonging to one locality rather than another or choosing a particular house shape mobility paths and aspirations Do dreams of mobility matter This volume promises to inspire other sociologists towards the richly revealing and highly significant findings that a broader based approach to social mobility will enable Daniel Bertaux is the director of research at the Centre d'étude des Mouvements Sociaux of the CNRS and EHESS in Paris His many publications on social mobility and on life stories include *Destins Personnels et Structure de Classe* and *Biography and Society* Paul Thompson is a research professor in sociology at the University of Essex His books include *The Edwardians The Voice of the Past I Don't Feel Old and The Myths We Live By* His is co editor with Bertaux of *Between Generations Family Models Myths and Memories* Migrant Care Workers Dr Karen Christensen, Dr Ingrid Guldvik, 2014-10-28 Cristensen and Guldvik's *Migrant Care Workers* provides insight to the historical context for public care work and shows how migration policies general welfare and long term care policies as well as cultural differences in values in the UK and Norway set the context for how migrant care workers can realise their individual life projects The authors discuss what might be called a new type of migrant one who is neither a victim of the divide between the global north and the global south nor someone leaving family behind but individuals using care work as a part of their own life project of potential self improvement *Research in Education*, 1968 *Western Sociological Review*, 1978 **Measures of Occupational Status in a Special Population** Joe L. Spaeth, 1977
