## **Story Of Doctor Dolittle:**

**The Story of Doctor Dolittle** Hugh Lofting,2023-12-17 The Voyages of Doctor Dolittle was the second of Hugh Lofting's Doctor Dolittle books to be published coming out in 1922. It is nearly five times as long as its predecessor and the writing style is pitched at a more mature audience. The scope of the novel is vast; it is divided into six parts and the illustrations are also more sophisticated. It won the Newbery Medal for 1923. It was one of the novels in the series that was adapted into the film Doctor Dolittle. The novel begins when Tommy Stubbins, the narrator of the story, finds a squirrel injured by a hawk. Matthew Mugg, the cat's meat man, informs him to get help from Doctor Dolittle, who can speak the language of animals. The Doctor is away on a voyage but when he returns he attends to the squirrel. Tommy is introduced to some of the strange animals in Dolittle's care, such as the Wiff Waff fish and those who care for his household, such as Dab Dab the duck and Jip the dog. Polynesia, the parrot, arrives in Puddleby from Africa and informs the Doctor that Bumpo is studying in Bullford. Tommy begins his studies with Doolittle or rather with Polynesia, who teaches Tommy the language of animals. Chee Chee comes from Africa disguised as a lady and tells about his voyage to Puddleby. The Doctor acquires The Curlew and is thinking of taking Tommy, Polynesia, and Luke the Hermit. They find out from the hermit's dog, Bob, that he was sent to prison for murder but Bob is a witness so when the court is in the process the Doctor proves to the judge that he can talk to animals. When this is settled he translates Bob's story to English. When the story is finished the judges conclude that the hermit is innocent.

[The Story of Doctor Dolittle](#) Hugh Lofting,2022-08-10 In The Story of Doctor Dolittle, Hugh Lofting crafts a whimsical yet profound narrative that follows the compassionate doctor who discovers he can communicate with animals. This enchanting tale, rich in anthropomorphism and adventure, is marked by Lofting's distinctive blend of simple prose and poetic passages reflecting both the innocence of childhood and the complexities of human-animal relationships. Set against the backdrop of early 20th-century England, the book weaves together themes of empathy, environmentalism, and the quest for knowledge, inviting readers to explore the interconnectedness of all living beings. Hugh Lofting, an English author and civil engineer, conceived Doctor Dolittle during World War I while serving in the trenches, where he sought solace through storytelling. His experiences and observations of the natural world, combined with a deep-seated belief in the virtues of kindness and understanding toward animals, shaped his creation of a character who transcends societal norms. Lofting's personal conviction that animals possess their own wisdom is evident throughout the narrative, making it both a heartfelt tale and a critique of human hubris. This timeless classic is essential reading for anyone who cherishes imaginative storytelling that inspires curiosity and compassion. Lofting's extraordinary ability to bridge the gap between humanity and nature in The Story of Doctor Dolittle invites readers of all ages to reconsider their relationship with the animal kingdom and encourages a deeper appreciation for life in all its forms.

[The Story of Doctor Dolittle](#) Hugh Lofting,2015-06-29 Doctor John Dolittle is the central character of a series of children's books by Hugh Lofting, starting with the 1920 The Story of Doctor Dolittle. He is

a doctor who shuns human patients in favour of animals with whom he can speak in their own languages He later becomes a naturalist using his abilities to speak with animals to better understand nature and the history of the world Doctor Dolittle first appeared in the author s illustrated letters to children written from the trenches during World War I when actual news he later said was either too horrible or too dull The stories are set in early Victorian England where Doctor John Dolittle lives in the fictional English village of Puddleby on the Marsh in the West Country The Voyages of Doctor Dolittle Doctor Dolittle has a few close human friends including Tommy Stubbins and Matthew Mugg the Cats Meat Man The animal team includes Polynesia a parrot Gub Gub a pig Jip a dog Dab Dab a duck Chee Chee a monkey Too Too an owl the Pushmi pullyu and a White Mouse later named simply Whitey THERE are some of us now reaching middle age who discover themselves to be lamenting the past in one respect if in none other that there are no books written now for children comparable with those of thirty years ago I say written for children because the new psychological business of writing about them as though they were small pills or hatched in some especially scientific method is extremely popular today Writing for children rather than about them is very difficult as everybody who has tried it knows It can only be done I am convinced by somebody having a great deal of the child in his own outlook and sensibilities Such was the author of The Little Duke and The Dove in the Eagle s Nest such the author of A Flatiron for a Farthing and The Story of a Short Life Such above all the author of Alice in Wonderland Grownups imagine that they can do the trick by adopting baby language and talking down to their very critical audience There never was a greater mistake The imagination of the author must be a child s imagination and yet maturely consistent so that the White Queen in Alice for instance is seen just as a child would see her but she continues always herself through all her distressing adventures The supreme touch of the white rabbit pulling on his white gloves as he hastens is again absolutely the child s vision but the white rabbit as guide and introducer of Alice s adventures belongs to mature grown insight Geniuses are rare and without being at all an undue praiser of times past one can say without hesitation that until the appearance of Hugh Lofting the successor of Miss Yonge Mrs Ewing Mrs Gatty and Lewis Carroll had not appeared I remember the delight with which some six months ago I picked up the first Dolittle book in the Hampshire bookshop at Smith College in Northampton One of Mr Lofting s pictures was quite enough for me The picture that I lighted upon when I first opened the book was the one of the monkeys making a chain with their arms across the gulf Then I looked further and discovered Bumpo reading fairy stories to himself And then looked again and there was a picture of John Dolittle s house But pictures are not enough although most authors draw so badly that if one of them happens to have the genius for line that Mr Lofting shows there must be one feels something in his writing as well There is You cannot read the first paragraph of the book which begins in the right way Once upon a time without knowing that Mr Lofting believes in his story quite as much as he expects you to That is the first essential for a story teller Then you discover as you read on that he has the right eye for the right detail What child inquiring mind could resist this intriguing sentence to be found on the second page of the book
