**Pronoun Envy** Anna Livia,2000-11-30 Controversy over gendered pronouns for example using the generic he has been a staple of feminist arguments about patriarchal language over the last 30 years and is certainly the most contested political issue in Western feminist linguistics Most accounts do not extend beyond policy issues like the official institution of non sexist language In this volume Anna Livia reveals continuities both before and after the sexist language reform movement and shows how the creative practices of pronoun use on the part of feminist writers had both aesthetic and political ends Livia uses the term pronoun envy ironically to show that rather being a case of misguided envy battles over gendered language are central to feminist concerns Livia examines a broad corpus of written texts in English and French concentrating on those texts which problematize the traditional functioning of the linguistic gender system They range from novels and prose poems to film scripts and personal testimonies and in time from the 19th century to the present Some withhold any indication of gender others have non gendered characters Livia s goal is two fold to help bridge the divide between linguistic and literary analysis and to show how careful study of the manipulation of linguistic gender in these texts informs larger concerns This fresh and highly interdisciplinary work lies at the intersection of several vital areas including language and gender sociolinguistics and feminist literary analysis

Marine Steven Zeeland,1996 A tantalizing yet scholarly look at homoeroticism and the performance of hypergender in Marine Corps life *Women's Encounters with Violence* Sandra Cook,Judith Bessant,1997-07-22 The issue of violence against women in countries around the world continues to receive increasing public media political and scholarly attention While research findings in *Women s Encounters of Violence in Australia* are framed within a specific perspective they extend beyond national boundaries to provide a critical analysis needed to change political and social policies worldwide Editors

Sandy Cook and Judith Bessant introduce the history of violence in Australia and examine how culturally embedded laws and customs have acted like locks on women's oppression. In addition to culture-specific topics such as the injustices suffered by Australian Aboriginal and Torres Strait Islander women, the contributors also explore issues that cross cultural boundaries, including violence against women with disabilities, homeless women, and lesbians. Promoting a crucial international context to this pervasive problem, *Women's Encounters of Violence in Australia* proves an excellent supplemental text for students as well as an accessible and timely resource for a broad range of professionals in counseling, social work, health care, and law, and faculty in sociology, public policy, and women's studies.

**Morality Matters** Jeffrey R. Di Leo, 2002. How do race, class, and gender issues affect moral philosophy? This question is the focus of this ambitious new applied ethics anthology. Author Jeffrey R. Di Leo complements classical and contemporary readings with materials drawn from film, fiction, court cases, and current events to create this highly flexible and versatile volume.

Gendering the Reader Sara Mills, 1994. In dit boek wordt de relatie tussen gender en lezen/interpretatie onderzocht. De auteurs gaan er niet van uit dat vrouwen per definitie anders lezen dan mannen. Ze onderzoeken veeleer wanneer gender wel en niet een verschil maakt in de interpretatie. Daarbij worden zowel etnografische, linguïstische als literaire theoretische methoden gehanteerd.
