Strange Peoples Stranger Customs:

Strange Peoples and Stranger Customs Gordon Cortis Baldwin, 1967 Describes customs and ways of life strange to Western man that come from the cultures of primitive men both prehistoric and present day Covers such elements as dress food and cooking housing communication and religion and magic **Queer Jewish Strangers in American Popular Culture** Amy Tziporah Karp, 2023-12-19 Queer Jewish Strangers in American Popular Culture Life Between Assimilation and Otherness explores LGBTQIA Jewish American identity in the United States and the queer Jewish stranger figures who live in between incorporation and estrangement Amy Tziporah Karp establishes that despite the near ubiquitous portrayal of Jewish American assimilation as a finished project completed in the wake of World War II in academic disciplines and throughout popular culture many LGBTQIA Jewish figures in contemporary popular culture inhabit stranger positionalities In these stranger spaces characters are forced to either perpetually attempt to assimilate or inhabit this interstitial stranger identity that is often viewed as a nowhere or homeless space Those who pursue assimilating endlessly try to fit in to no avail such as Jenny Schecter from Showtime's popular The L Word who is ultimately killed off on the show possibly murdered by her LGBTQIA community of friends Karp shows that those who attempt to make a home in a stranger positionality align themselves with other estranged and othered peoples such as characters throughout Sarah Schulman's novels and that this constitutes an ethical stance against the ways in which assimilation often inadvertently supports the workings of violent hegemonies in the United States **E(n)stranged: Rethinking Defamiliarization in Literature and Visual Culture** Nilgun Bayraktar, Alberto Godioli, 2024-10-24 Various translations as estrangement enstrangement or defamiliarization Viktor Shklovsky's concept of ostranenie is more relevant than ever This collection offers new insights into the theories and practices of ostranenie across various languages and cultures with a particular focus on the 20th and 21st centuries Our current era is marked by a dramatic redefinition of the normal and the strange the familiar and the weird The rise of far right populism has increasingly normalized xenophobic and nativist stances previously confined to the fringes of the political spectrum Additionally the climate crisis has led to the ongoing renegotiation of the concepts of normalcy and emergency amid widespread efforts to adapt to the new abnormal Exploring defamiliarization provides a unique perspective to comprehend and question these processes and their profound cultural implications Focusing on ostranenie also offers valuable insights into how aesthetic forms serve a political function Defamiliarization can take on various forms including retro futuristic dystopias stylized films and darkly humorous cartoons and memes It can be an effective tool for political activation that relies on formal innovation rather than superficial emotional engagement This collection brings together the work of a group of scholars examining defamiliarization across different media It explores questions such as How can we differentiate between various forms of defamiliarization and analyze their effects on the reader/viewer How is defamiliarization connected to the weird the eerie or the uncanny As a result the collection offers an updated theoretical

framework for understanding the wide range of emergent artistic and literary practices of en strangement in the current era and their significant political affordances Chapter 6 is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

Cosmopolitan Strangers in US Latinx Literature and Culture Esther Álvarez-López, Andrea Fernández-García, 2023-03-30 This book presents a study of the figure of the stranger in US Latinx literary and cultural forms ranging from contemporary novels through essays to film and transborder art activism The focus on this abject figure is twofold first to explore its potential to expose the processes of othering to which Latinxs are subjected and second to foreground its epistemic response to neocolonial structures and beliefs Thus this book draws on relevant sociological literature on the stranger to unveil the political and social processes behind the recognition of Latinxs as out of place On the other hand and most importantly this volume follows the path of neo cosmopolitan approaches to bring to the fore processes of interrelatedness interaction and conviviality that run counter to criminalizing discourses around Latinxs Through an engagement with these theoretical tenets the goal of this book is to showcase the role of the Latinx stranger as a cosmopolitan mediator that transforms walls into bridges
